## KENNETH BRESSETT

Racine, Wisc.

Manager of the Whitman Coin Supply Department

When I became seriously interested in numismatics over thirty years ago, I made a decision to devote my time to studying coins as well as collecting them. In retrospect, the study of numismatics has been every bit as rewarding as the actual collecting. I thoroughly enjoy trying to stimulate others to get involved in the hobby and share its many benefits.

Editor's note: Bressett has a unique relationship with numismatics. He joined the Western Publishing Company staff in 1959 to work with R. S. Yeoman in editing his well known book. Since that time, he has authored many books and articles on various subjects. From 1964 through 1968, he served as Managing Editor of the Whitman Numismatic Journal. He is now Manager of Whitman Coin Supply Department.

An active member of all the scholarly numismatic organizations, Bressett teaches at the annual ANA summer seminars, is on the ANS Far Eastern Committee, and was appointed to the U.S. Assay Commission in 1966.

Coins link men everywhere with all ages of humanity, reflecting the wisdom and failures of the past, the problems of today, and the dream of tomorrow. — O. H. Dodson

## MAJOR MINT ERRORS

The following selection of Major Mint Errors represents the most important single offering of its kind at an ANA Auction.

Collecting Mint Errors presents a unique opportunity of many possibilities and combinations. Unlike non-error or regular coins, the rarity of an error on a particular type coin usually takes precedence over the grade of the coin for the error collector.

There is a large selection of early type, Proof and Ike dollar errors in this sale, but the individual should not interpret this concentration to mean these are "common" errors. The coins being offered here are representative of some of the finest Major Mint Error collections known today. They have been selected solely for the purpose of enhancing the **FIRST** Mint Error Session at an ANA Auction.

Other FIRSTS for the Error fraternity at the 1977 ANA Convention include:

1. **EXHIBIT CLASS #16 - NUMISMATIC ERRORS.** Beginning this year, Numismatic Errors are in a separate and distinct category. **Be sure and see the exhibits.**
2. **MINT ERROR COLLECTOR'S TABLE.** During the Convention a special table positioned outside the Bourse area will serve as an information center for anyone who wants to learn more about errors. Various error club members will be at the table throughout the week to hand out club information and answer questions. Stop by and say hello.
3. **MINT ERROR COLLECTOR'S MEETING.** On Saturday, August 27, following the error session of the auction, error collectors will meet in the Hermitage East and Central rooms. This informal gathering will begin at 1:00 P.M. and will include a "panel of experts" to answer questions from the audience as well as questions on prepared topics. In the evening, members of the Numismatic Error Collectors of America (NECA) will hold an open Board meeting. Everyone is invited to attend.

The **GOLD ERRORS** were cataloged by Walter Breen. The remaining errors were assembled and cataloged by error specialist Natalie Halpern, thereby assuring the buyer of accurate descriptions.

## EARLY AMERICAN ERRORS

- 4455 1723 Hibernia HALFPENNY **DOUBLE STRUCK**, 2nd strike 95% over 1st; VF. (200+)
- 4456 1787 Conn. Miller rev. r.1, early state. **FULL BROCKAGE**, on center, **everything** on flan except tops ET LIB. Fine, 78 affected (norm. side) by one (usual) planchet defect. **RARE! PLATE**
- 4457 CONN. 1787 **OVER** 1877, Miller 12Q, R-6, Very Fine, usual porous planchet. **FAMOUS ERROR DIE**. The Guidebook value of \$250 seems a bit conservative in keeping with the number of want-lists we have had the past three years. **PLATE**
- 4458 1788 CONN. drape, **DOUBLE-STRUCK** 50% OFF-CENTER BOTH SIDES, E.F. **RARE**. (500) **PLATE**

4459 1788 Conn., Draped bust left, M.14.2—A.2 (**R-6**), but a **flip-over double strike**. One side AUCTORI COT LIB, head and part of upper third of seated figure (head, arm and shield); other, AUCTORI NDE ET LIB, outline of head, and top  $\frac{2}{3}$  of seated figure, but no dates. The dies were originally aligned only about 40° apart, the two impressions (both well centered) about 90° apart. **Very rare; eventually likely to receive a half page writeup in COLONIAL NEWS LETTER. PLATE**

- 4460 1785 Nova Constellatio, **MULTIPLE-STRUCK FLIPPED COIN** (obv. on rev. & rev. on obv.) **OVAL PLANCHET**, Very Fine. Acquired 3 years ago at \$350.00. **PLATE**

## EXTRAORDINARY MINT HALF CENT ERRORS

- 4461 1795 Half cent, Plain edge, no pole, G-5. Off center about 10% in K-10  $\frac{1}{2}$ , affecting only borders. Strictly Fine, dark, devices and letters highlighted.

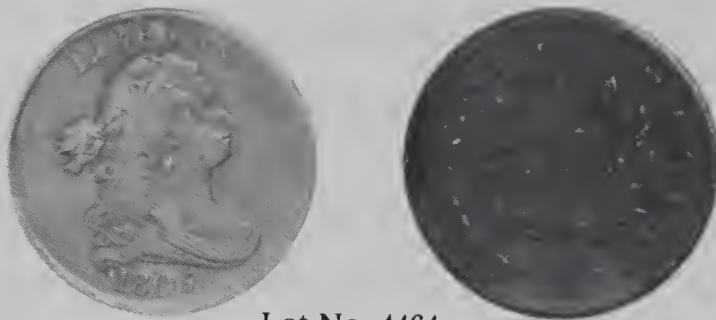

Lot No. 4462

- 4462 1795 Plain edge, no pole, struck on nearly perfect **OVAL PLANCHET**, Sharp Extremely Fine, tiny edge nick and light line at edge. **RARE**. Four figure coin 1972.

## UNIQUE 1802 HALF CENT ERROR

- 4463 1802 Half Cent, G-1, new style reverse. Overstruck on a double-struck cent, both impressions from the cent dies being off center, one evidently half or more, showing only STA and border, the other only border, crossing at an angle indicating that they must have overlapped each other about 50%! Though all 1802's are overstruck on "spoiled" cents, **usually no trace of undertype shows**, or at most a letter or part of border, indicating that the cent was originally off center. This the **only one we have seen on a demonstrably double-struck undertype**. First identified about 1965. So rare that the grade is irrelevant, but for the record, Good, everything legible except TES OF A which are affected by the undertype. Ex. Sale of the 70's 11/73:1851 at \$1,250.

Lot No. 4464

- 4464** 1805 G-1 Stemless, **DOUBLE STRUCK**, obv. die rotated 90° between strikings, rev. normal; two faces, parts of second set of curls, nothing else, F-VF. We have seen similar pieces dated 1804 and 1806. **Very Rare.**

Lot No. 4465

**LARGE CENT ERRORS**

- 4465** 1¢ 1793 S-8, **Uniface OBVERSE**, very thin planchet with bust somewhat incused, about Fine with usual porous planchet. **THE ONLY ONE WE CAN RECALL SEEING!** A four figure coin in 1967.

Lot No. 4466

- 4466** 1¢ 1794 S-31, **BLUNDERED EDGE**, **"ONE HUE A DOLLAR"**, Sharp Very Fine bordering on Extremely Fine. As a date, this is about a \$500 coin but as an error, it is **EXTREMELY RARE!** Valued \$1,500 in 1972.

**WE CANNOT BE RESPONSIBLE FOR ERRORS IN LOT # OR BID PRICE  
PLEASE BE SURE TO CAREFULLY RECHECK YOUR BID-SHEET**

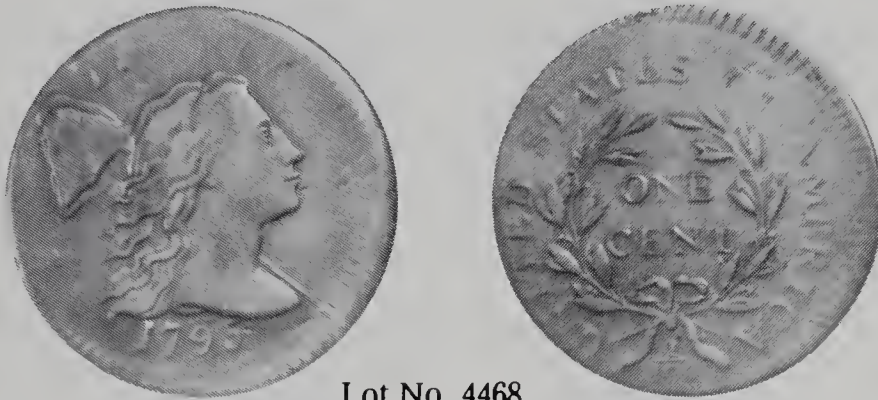

**WE MAINTAIN A LARGE STOCK OF COINS & CURRENCY  
NOT CONTAINED IN OUR SALES. SEND A WANT LIST  
WITH YOUR BID SHEET FOR FAST RESULTS!**

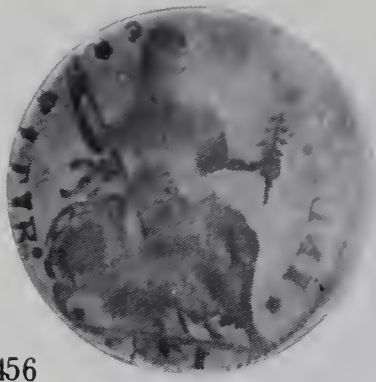

Lot No. 4467

- 4467** 1¢ 1795 S-76a, RARITY 6, Lettered Edge, "ONE CENT" high, **MULTIPLE-STRUCK FLIP** (obv. on rev. & rev. on obv.), oversize oval planchet, Sharp Very Fine bordering on Extremely Fine. Scott states S-76a "Very rare above V.G." and lists V.F. at \$600, double Fine at \$300 but omits E.F. due to rarity. An E.F. would probably rate around \$1,200 or so; surely this desirable and **EXTREMELY RARE** Multiple-Flip worth somewhat more. Valued \$1,500 in 1972.

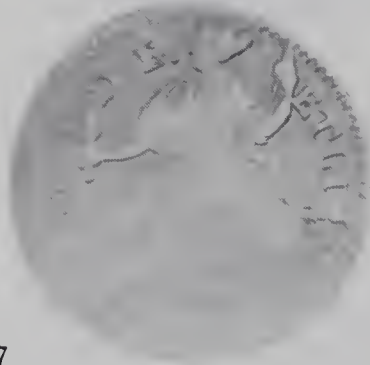

Lot No. 4468

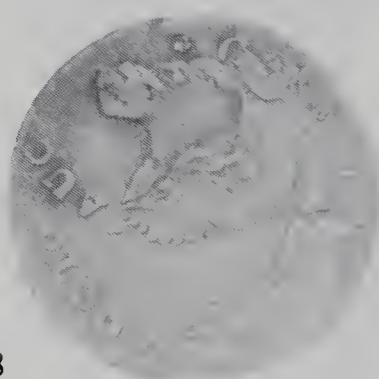

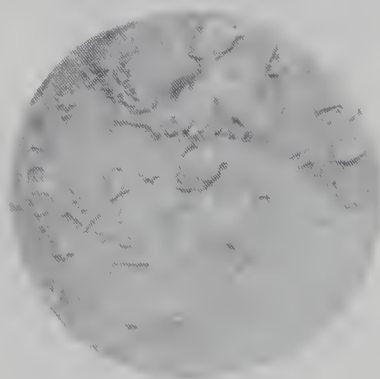

- 4468** 1¢ 1795 S-76b, plain edge, **DOUBLE STRUCK in collar**, 2nd strike about 95% over first, XF where struck up. Probably cleaned, now retoned a pleasing brown with traces of red.
- 4469** 1¢ 1795 S-78, **DOUBLE STRUCK**, two strikings about 45° apart; LIBERTYBERTY and **two clear dates**, all eight digits visible. Rev. UNITE STATES OF AMERICA, R being obliterated by second r. ribbon and stem. Double strikes are known of this variety (struck in early 1796 when quality control must have been at a minimum), but this glossy clean F-VF (with surfaces suggesting a higher grade) is one of more attractive ones.
- 4470** 1¢ 1814 S-225, Plain 4, **DOUBLE STRUCK**, 2nd striking 90% off center so that only about 1/8 of its border shows above head. Better than VF, sharp, localized black rough patches. Very unusual. **PLATE**
- 4471** 1¢ 1814 **DOUBLE STRUCK**, "814" before forehead and "ES OF" lower left rev. edge, VG Valued \$500 in 1968, **PLATE**
- 4472** 1¢ 1817 BU, much original red, lamination rev., scarce this nice. **PLATE**
- 4473** No date (1822) Rev. I, of 1822 N-9 & 10, in full **BROCKAGE** form, almost Fine, the incuse side better, though with some foreign matter adhering to the struck coin which impressed this blank, affecting ES, as made. **RARE**.
- 4474** 1¢ 1825 Small A's, Rev. **DOUBLE STRUCK**, two strikings 5° apart - like die chatter, or rev. loose in stake. Very unusual, VF. **PLATE**

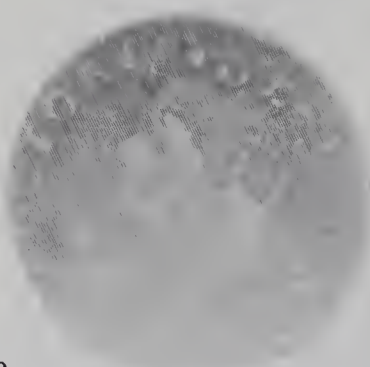

4456

4458

4459

4460

4470

- 4475 1¢ 1831 N6, Fine. **DOUBLE STRUCK**, 2nd strike 95% off-c. at 11:00. **PLATE**
- 4476 1¢ 1844 N-3, almost 30% off center in K-7. Everything on flan except bottom of date, part of first star, and upper half of STATES. Near Ex. Fine. **Rare and desirable with legible date**; most off centers in this period are dateless and unattributable.
- 4477 1¢ 1854 N-8, **BROADSTRUCK** (29 mm.) out collar but unusually well centered, EF, light brown, not sharply struck, borders weak as usual for broadstruck coins. **PLATE**

#### SMALL CENT ERRORS

- 4478 1¢ 1859 12% **OFF-C.** at 2:30; VF but scratches. **SCARCE!** (150)

Lot No. 4479

#### UNIQUE DOUBLE-STRUCK 1863 CENT ON DIME BLANK

- 4479 1¢ 1863 Struck on DIME-blank, Unc. Blank stuck in collar and received **MORE THAN ONE IMPRESSION**, which would account for **partial Proof-Like surfaces**. Some light hairlines. **UNIQUE! Unknown to Taxay-Scott.**

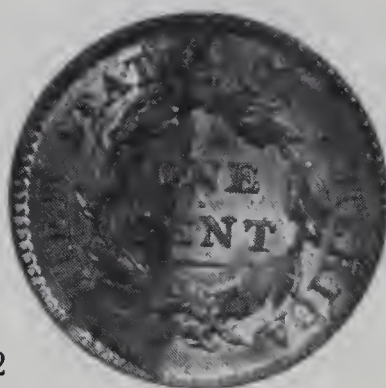

- 4480 1¢ 1882 **DOUBLE STRUCK**, 2nd, 75% off-c. at 11:30; **Two full dates**. EF; beautiful example. Scarce error type. (225.+) **PLATE**
- 4481 1¢ 1895 **DOUBLE STRUCK**, 2nd strike 75% off-c. 11:30; **2 full dates**, VF. (200+) **PLATE**
- 4482 1¢ 1897 **DOUBLE STRUCK**, 15% off-c. at 6:00, 2nd on center, EF. (175)
- 4483 1¢ 1898 **MULTI STRUCK**, coin ejected, re-entered and struck again at least 4 times, as evidenced by at least 4 partial collar lines; struck 85% off at 10:00, red-brn, Unc. Very rare, ANACS papers. (250) **PLATE**

- 4484 1¢ 1900 Struck 25% off-center on 10¢ Silver Planchet, Brilliant Unc. Owner says "UNIQUE!" Acquired 1966 at \$1,550.

- 4485 1¢ 1901 **PROOF**, Struck through thread-like material in front of Indian's face; visible early **Proof** error. **PLATE**
- 4485A 1¢ **DOUBLE STRUCK IN COLLAR**. Normal, 2nd impression 1% off-center, VF. (125)
- 4486 1¢ 1908 **DOUBLE STRUCK IN COLLAR**. Indent at 12:00 from blank planchet resting on coin during 2nd strike, EF, an unusual combination error. (200) **PLATE**
- 4487 1¢ 1919 Full Brockage about 1/3 off-center in K-12. VF or so, obv. date too weak to read, **incuse side as clear as one would wish**. Very rare. **PLATE**
- 4488 1¢ 1920 On foreign nickel blank (El Salvador one centavo). Appears to be "silver cent," nicely struck **OFF METAL**, Unc. (175)

Lot No. 4489

- 4489 1¢ 1943 (mintmark?) steel cent, **DOUBLE STRUCK**, in very unusual manner: 1st entirely normal, 2nd 60% off-center in K-8, **uniface**, another blank had fed into the collar while this normally struck cent was only partly ejected from it. The result is that most inscriptions but 1 of date shows on 1st striking, Lincoln's face and part of head and WE TRUST are all that remain of 2nd impression; on its rev. all that shows is part of right wheat stalk, much enlarged, from first striking, Unc. This one has to be seen; doubtless **Extremely Rare**.

- 4490 1¢ 1943-S On dime blank (38.9 grains); better centered than most as everything on flan but tops of motto, warmly toned Unc., bright, not as well struck as normal cent, as expected for these. **Much rarer with the S mintmark than from Philadelphia. PLATE**

Lot No. 4491

- 4491 1944 Cent struck on 1943 Steel Planchet; characteristic weakness (striking) of second 4 and part of "O" (ONE) as on the few genuine specimens known, porous surfaces. A certificate of GENUINENESS from Walter Breen giving all details accompanies this GREAT RARITY! We have noted prices of \$5,000, etc. (although the one written up in July 2, 1974, Numismatic News states "he expected more than the \$12,000 realized recently in a west coast auction for a 1943-S bronze cent.")

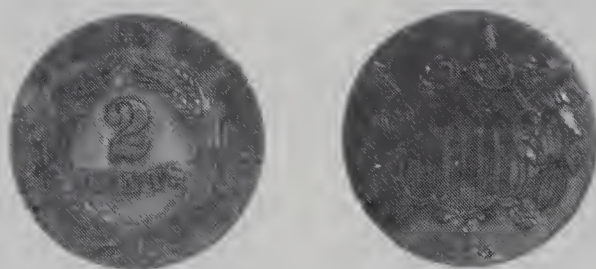

Lot No. 4492

- 4492 1¢ Lincoln **STRUCK OVER 1946 10¢**, ERROR, Abt. Unc. **VERY RARE!** Valued \$1,000 in 1973.

- 4493 1¢ 1955 **DOUBLED DIE OBVERSE**, on rolled thin planchet, 10% light in weight, AU. Combination die planchet error. **PLATE**

- 4494 1¢ 1957 Struck on 10¢ blank (38.8 grains), Bril. Unc., delicate toning, weakly struck at borders. **Rare**, more so than the 1956 and 1943.

- 4495 1¢ N.D. (1909-1958) 40% off-c. 10¢ blank, K-6 ½. **Far more rare** so than norm. struck 1¢ on 10¢ blanks, or than off-c. on norm. 1¢ blanks.
- 4496 1¢ 1961-P OFF METAL on silver 10¢ planchet, VF. (100)
- 4497 1¢ 1964-D Struck flat on a silver 10¢ planchet, Unc. (150)
- 4498 1¢ 1964 **CAP**, Ext. deep-drawn capped die piece; rev. is full expanded **brockage**, fully dated; BU. One of finest caps known! **PLATE**
- 4499 1¢ 1968-S PROOF, on **clad** 10¢ planchet. All 1¢ on 10¢ planchet OFF METALS are rare; on Proof 10¢ it is **exceedingly rare!**
- 4500 1¢ 1969-S PROOF, large CUD (broken die), Most Proof errors removed from Proof sets for authentication; this still sealed in set. **VERY RARE.**
- 4501 1¢ 1969-S Proof, indented obv. by foreign material stuck to upper die; Sealed in Proof set.

Lot No. 4502

### TWO-CENT ERROR

- 4502 2¢ 1866 Struck on bronze 1¢ planchet. Full date, motto complete except for tops. Very close to Unc., light brown, flecks Mint Red. The only 1866 reported, though four other dates known.

### THREE-CENT ERRORS

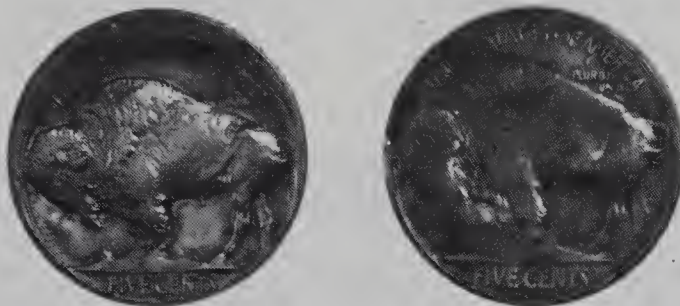

- 4503 No date (1854-1858) Type 2, 3¢ Silver, 50% Off-Center in K-5, no date, UNI & MERICA off flan. Ex. Fine, sharp; Ext. Rare, **grossly undervalued by Taxay. PLATE**

**CHARLOTTE, NORTH CAROLINA MINT GOLD**  
**\$1 "C" MINT GOLD - STRUCK 1849 THROUGH 1859**

- 4643 1849-C **About Uncirculated** with much luster, Sharp Struck with Wire Edge but struck from dished dies causing some flattening of some center hair strands, sharp stars, Reverse quite sharp. Guidebook EF \$575 and Unc. \$1,500, this worth somewhere between.
- 4644 1850-C **About Uncirculated, Proof-Like**, Scarce 6966 Mintage. **PLATE.**
- 4645 1851-C **Sharp Extremely Fine, Proof-Like** and well struck for a Charlotte mint coin, some contact marks. **PLATE.**
- 4646 1852-C About Very Fine (Reverse bit sharper than Obverse).

Lot No. 4647

- 4647 1853-C **Nice Borderline Uncirculated**, well struck hair and stars, weak at date as usual, much luster.
- 4648 1853-C Very Fine, tiny edge nick, short 11,515 mintage.

Lot No. 4649

- 4649 1857-C **About Uncirculated**, better struck than most (less weak struck than usual). Nearly all come weak struck on defective planchets, Rare thus.

**\$2½ "C" MINT CHARLOTTE, N. CAROLINA GOLD - STRUCK 1838 THROUGH 1860**

Lot No. 4650

- 4650 1839/38-C Overdate. **Nice Extremely Fine** with cracked Rev. die. A similar piece sold in 1974 for \$1,100.00. ANACS #A4004.
- 4651 1840-C Very Fine. Scarce.

- 4652 1841-C **About Uncirculated**, much luster and Wire Edge. Scott values AU \$600 but records since then have pushed up the Uncirculated value in "Trends" to \$1,600; present value?
- 4653 1842-C Extremely Fine, sharper than most that come from this usual soft strike. **SCARCE. PLATE.**
- 4654 1843-C Large Date, Very Fine/Fine, Usual soft strike.
- 4655 1846-C Very Fine, Orange gold, Even wear with a few rim nicks. Only 4808 struck! Scarcer than the "Trends" of \$450 indicates.
- 4656 1847-C **Choice About Uncirculated**, scarce in this grade. **PLATE.**
- 4657 1850-C Choice Extremely Fine, with luster, Well struck for date. **PLATE.**
- 4658 1851-C Extremely Fine, with the Reverse Choice. Scarce.
- 4659 1852-C Top Grade Extremely Fine, small rim nick Rev. Scarce. Cost \$550. **PLATE**

Lot No. 4660

**\$2½ 1855-C "FINEST KNOWN"?**

- 4660 1855-C **Uncirculated** with partial Wire Edge caused by the Reverse being struck about 1% off-center, in turn slightly flattening a few Reverse edge denticles. Scott lists it "RARITY 6" (13 to 30 known) and UNKNOWN IN UNC." Therefore the value of \$3,000 given for "Unc." in Guidebook is theoretical! Surely a candidate for "FINEST KNOWN"!

**\$5 "C" MINT CHARLOTTE N. CAROLINA GOLD - STRUCK 1838 THROUGH 1861**

- 4661 1851-C Fine. Ex Coin Galleries 4/76 at \$280.00.
- 4662 1852-C **Uncirculated** but somewhat bag-marked, Sharper Struck than most seen. Scott (2 years ago) stated "Excessively rare in Unc." and valued Unc. then \$1,750; "Trends" now Unc. at only \$1650 seems a bit conservative.
- 4663 1856-C Sharp Very Fine, scarce. Ex Stack's 4/76 @ \$300.00. **PLATE.**

**DAHLONEGA, GEORGIA MINT GOLD**

**\$1 "D" MINT GOLD - STRUCK 1849 THROUGH EARLY 1861**

- 4664 1849-D Breen 2 (mintmark well to left of center) **About Uncirculated**, well struck for the date but a few small nicks. **PLATE.**
- 4665 1849-D Very Fine/Fine, mounting removed from Reverse.
- 4666 1850-D Fairly sharp and legible but rims reworked and some abrasions. Scarce.

Lot No. 4667

**4667** 1851-D **Choice Uncirculated**, lustrous and sharply struck from clashed dies, faint lines top Obv. field visible with a glass, minute contact mark above "1". Probably "Condition-Census"! Ex. McNally: 574.

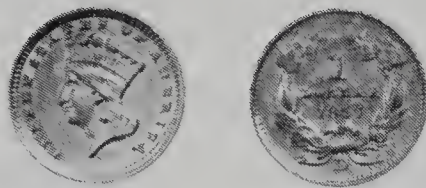

**4668** 1851-D **About Unc.** with typical Rev. clash marks, scratch in hair. Scarce. **PLATE.**

**4669** 1852-D Ext. Fine with clash marks, Rev. lettering recut. Scarce. 6360 mintage. **PLATE**

Lot No. 4670

**4670** 1853-D Sharp Struck top-grade Extremely Fine, which is unusual for this date.

Lot No. 4671

**4671** 1857-D Probably **Uncirculated** in spite of the faint contact marks visible with a glass, typical soft struck top hair strands below Liberty. Among the top-grade ones known. **RARE THUS.** A highly desirable specimen which we believe to be conservatively valued in the catalog at only \$2,350 for Unc.

Lot No. 4672

**4672** 1858-D **Choice About Uncirculated**, Well struck for the date, usual doubled Obverse. **RARE**, particularly so Choice. Only 3400 minted.

Lot No. 4673

**4673** 1859-D Choice Sharp Struck Extremely Fine with luster, several small rim nicks. Unusually well struck for the date, less than 5000 made **RARE.**

Lot No. 4674

**\$1 1860-D CONDITION-CENSUS**

- 4674** 1860-D Much Mint Lustre in fields, usual localized weaknesses on devices and rims, with what may be touches of rubbing here and there: /minute nick on nose. In Wolfson sale it was graded "About Unc.," evidently from the surfaces, and it will probably qualify at that level, as some details are certainly of **full original sharpness**. Sharper struck than most with only U (it is faint) not visible. Most seen have weakness extending to N. Even the 6 in date is invisible (though not sharp); most seen are blobs or not visible. Of original mintage of 1,566, somewhere around 1.5% are thought to survive — a **couple dozen pieces in all!** There are apparently four different Mint State examples one of which (the Boyd, Kern, Pierce, Miles example) went to a dealer at \$8,500 in May 1974. **The present coin is apparently fifth finest** but SHARPER THAN SOME "UNC." Ex. Wolfson: 46, original envelope attached.

**\$2½ "D" MINT DAHLONEGA, GEORGIA GOLD-STRUCK 1839 THROUGH 1859**

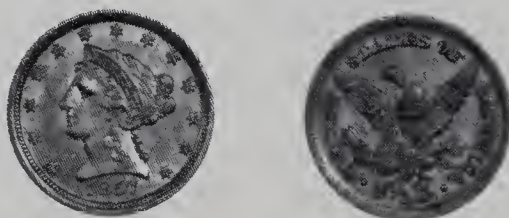

- 4675** 1839-D Very Fine, usual soft struck Rev., rub spot. Scarce mint mark Obverse type. Low coinage.
- 4676** 1844-D **About Uncirculated** with luster, two edge peculiarities (one possibly done at Mint - incomplete (reeding). Scott AU \$600 but records since have pushed up Uncirculated in "Trends" to \$1,500; this? **PLATE**
- 4677** 1846/45-D (46 recut over?) About Uncirculated with luster, sharper than most seen over the years. Scott AU \$625 for normal 1846-D (overdate not listed Scott or Guidebook) but records since then have pushed up the Unc. in "Trends" to \$1,500; present value? **PLATE**
- 4678** 1847-D B-2, traces of bases of 47 left of 47, D crowded up against stem, die file marks through ED ST; struck before the rim breaks developed (R-5), **Between EF and AU, Brilliant surfaces suggesting a higher grade** despite minute handling marks. (bought for "Sharp AU"). Tiny nick above errors. Cf. (for variety) that in the 1974 GENA sale, and for condition, Miles: 139; **very seldom equaled. PLATE**

Lot No. 4679

- 4679** 1848-D **Borderline Uncirculated**, quite sharp with only barest friction, unusually Sharp Strike! Rare thus. Scott AU \$625 but records since have advanced Uncirculated to \$1,600 in "Trends"; present value?

- 4680 1849-48-D? (49 recut over?) **About Uncirculated with much luster.** Scott (2 years ago) valued AU (normal date) \$400 but records since then have advanced the Unc. in "Trends" to \$1,600 for normal date; this worth? **PLATE**
- 4681 1850-D **About Uncirculated**, quite sharp with fewer than usual contact-marks. Guidebook Extremely Fine \$400 but records since have pushed up the Unc. value in "Trends" to \$1,700; this worth? **PLATE**
- 4682 1851-D **About Uncirculated**, traces of Proof-Like luster, Well struck for date and mint - Wolfson had a VF - Less desirable pieces have brought over \$1,000. **PLATE**
- 4683 1853-D Close to Extremely Fine but small X in reverse field. **Rare in any grade.** Ex. Stacks at \$550 but low coinage of ONLY 3,178 leads us to expect this rarity to now fetch more. **PLATE**

Lot No. 4684

- 4684 1857-D Extremely Fine or better, bold, some luster, minute handling marks. Excellent example of this well known rarity (2,364 minted), sharper than that in the 1975 ANA sale at \$925, not much different overall from Breen II:627 or Winter:524 at \$1,100.

Lot No. 4685

- 4685 1859-D Sharp Very Fine, nearly Extremely Fine. Nice pleasing coin with no problems. Only 2,244 STRUCK! Possibly a four figure coin.

**\$5 "D" MINT DAHLONEGA, GEORGIA GOLD - STRUCK 1838 THROUGH EARLY 1861**

- 4686 1838-D Choice Extremely Fine with all the detail of Sharp about Uncirculated. Rare, an equal piece sold late last year on the east coast for \$1,650.

- 4687 1843-D Extremely Fine, well struck but a bag mark on the face.

Lot No. 4688

- 4688 1844-D Choice About Uncirculated with luster. This coin is **probably Uncirculated** but has too many small bag marks to be catalogued as such. Very Scarce.
- 4689 1844-D Sharp Very Fine (cleaned).
- 4690 1846-D Nice Very Fine with a double punched D (first too high), scarce; and 1846-D Fine with normal D, **pair in plastic**.

Lot No. 4691

**TIED FOR FINEST KNOWN 1847-D**

- 4691 1847-D B-1, cracked as described. **Brilliant Uncirculated, exceptionally sharp strike**, partly frosty, partly Proof-Like; faint hairlines, but no bag marks worth mentioning. Tied with Breen II:421 (at \$1,450), a shade better than Austin:1050 (a B-3 Proof-Like but noticeably bag marked — at \$1,750), and has an edge over every other 1847-D we have seen to date; therefore, fairly described as **tied for finest known**. All Dahlonega gold is rare in mint state, the half eagles particularly so; and usually these pieces are not struck sharply at all. The present coin is thus exceptional in every respect and likely to bring a runaway price.

- 4692 1847-D Very Good, Ex Stack's 6/73 sale.
- 4693 1853-D Sharp Very Fine, tiny nick. Scarce.
- 4694 1854-D Choice About Uncirculated, but **appears Unc.** due to cleaning, Well struck. **PLATE**

**4695** 1857-D B-3: obv. date slants up to right, rev. of B-1 as described in the monograph, though D does not quite touch device. **About Uncirculated, above average strike** for this mint, though not in a class with the 1847-D; signs of old cleaning; few Very Light Bag Marks, One Tiny Plain One Near 3rd Star. Possibly ex Breen II:450 (we did not see this lot): whatever its actual pedigree, this is apparently **tied for second finest known**, there still being only the one choice mint state example.

**4696** 1858-D Very Fine, poorly struck on a rough planchet.

**4697** 1859-D Borderline Uncirculated, Sharp Struck with much luster. Rare thus. The lowest \$5 Dahlonga coinage next to 1851-D! The Guidebook value of \$800 in only Extremely Fine seems conservative in keeping with its rarity.

Lot No. 4698

**\$5 1860-D PROOF-LIKE GEM**

**4698** 1860-D Brilliant Uncirculated, Sharp Struck Proof-Like Gem! Those who have searched for a specimen such as this will understand its rarity. Possibly "FINEST KNOWN" (11/74: 1636) at \$7,500.00.

Lot No. 4699

**GOLD DOLLARS**

**4699** 1849, Type 1: Open wreath, small head, no L. *Breen I-1: recut R of DOLLAR (the other rev. with this obverse lacks the recutting). Readily identified as small head by coronet point midway two stars; the single die without L has two stars below head obviously repunched. Exceedingly rare die states III: heavy arc crack across reverse; second crack to second T of STATES. Extremely Fine or better, much mint lustre, light handling marks, faint scratches. Only the fourth seen to date in this die state. This variety formed part of the 1,000 impressions struck May 8, 1849.*

**AVOID ERRORS - RECHECK YOUR BIDS!**

4700 1849 Open Wreath, Breen II-3 variety, **small head with "L"** (weak and difficult to make out) on truncation of bust, flat fields, **Uncirculated, quite sharp**. Variety verified by Breen. Acquired as "VERY RARE".

4701 1849 Open Very Fine; 1853 Extremely Fine; 1856 Very Fine, **3 pcs.**

Lot No. 4702

**\$1 1849 PRESENTATION PIECE?**

4702 1849 Type IV. Closed wreath, One of the heavy date varieties, with date plainly recut, die file marks above M and at lower rev. field, similar to lot 2 of the first Beck sale. **Brilliant Proof-Like Unc., struck from polished dies on a polished blank**, but a normal striking as the borders are not built up from additional blows as on the exceedingly rare thin date proofs. Light hairlines, trivial handling marks. Very unusual and rare Proof-Like!

4703 1849 Closed wreath, recut 8, Borderline Uncirculated. (rub on cheek).

4704 1849-O. Breen 1 (not in the original monograph though it has the same reverse as the old O-1). Thin stars, almost free of extra outlines; recutting on ME and on R of DOLLAR, **R-4?** Die of "Gilhousen":5, and of Merkin 6/68:373. Very Fine or better, lustrous. (bought for Choice EF).

4705 1849-O **Uncirculated, Sharp Struck**, beautiful yellow golden toning. Very Scarce in mint state. Ex: McNally 585. **PLATE**

4706 1850 About Uncirculated, quite sharp with luster, tiny dimple-like depression on neck. The low coinage of only 14,000 reflects the rarity of this date. Considerably undervalued in keeping with its rarity.

4707 1851 **Uncirculated**, nice satin finish, a few faint bag-marks.

4708 1851 Extremely Fine, nice example of grade.

4709 1851-O About Uncirculated, nice sharp strike.

4710 1851-O Cleaned Extremely Fine; 1853-O Extremely Fine; 1853 Very Fine.

Lot No. 4722

- 4722 1854 **LARGE SIZE**, (Type II) Breen B5 (**R-5**). Obv. part of extra L left of L. Rev. Thin shallow date slants down; rim breaks ("cud") at 1:00 and 3:00. **Brilliant Uncirculated** unusually sharp except in central Obv. and would be a **Gem** except for an F pin scratched below bust.

Lot No. 4723

- 4723 1854 Type II, **Choice Uncirculated** from clashed dies and soft date as usual; excellent type. Ex. McNally 528.
- 4724 1854 Type II, Choice Extremely Fine; 1856 Slant 5, Extremely Fine.

The catalog value of \$3,400 does not adequately reflect the rarity of this date in well struck condition.

4734 1857 Uncirculated, well struck from clashed dies. **PLATE**.

4735 1857 Extremely Fine.

Lot No. 4736

4736 1858-S, B-1 (low date, S high and minutely r. of center of space); struck before the die was reground About Unc., **Rev. sharper than Obv.; mint lustre**, faint hairlines, only the most trivial handling marks. **VERY SCARCE!** few of the survivors of the 10,000 minted will exceed this one. Lot No. 4741

**CHOICE \$1 1875**

**4741** 1875 **Choice Sharp About Uncirculated**, lightly buffed long ago to enhance its brilliance, now beginning to acquire a more natural appearance, minute contact mark on Obverse visible with close inspection. **THE RAREST, BY FAR, OF ALL THE PHILADELPHIA MINT DOLLARS!** Only a **mere 400 struck for circulation.** The majority of the few surviving specimens seem to have been used for jewelry (the gold dollar stick-pin was popular in the Nineteenth and early Twentieth Centuries.) This is one of the choicer specimens available (other than the few Proofs). This date has consistently headed the want lists for gold dollars. Quite understandable as it is seldom offered in any grade. An attractive specimen acquired in May, 1974 at the Central States Convention for \$4,750.00. The popularity of the gold dollar series is reflected in the present Guidebook values of \$3,500 for EF and \$7,500 for Unc.

**4742** 1876 Choice About Uncirculated, semi-Proof-Like. Scarce date. **PLATE.**

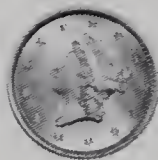

**4743** 1878 Choice Extremely Fine, nearly About Uncirculated, **RARE.**

Lot No. 4761

**\$2½ - 1796 QUARTER EAGLE - 16 STARS**

- 4761 1796 16 STARS, **About Uncirculated with Proof-Like surfaces**, slight handling marks. The stars and legends are well struck. Scott's lists this R-7! Popular first year. ANACS #A3710.

**\$2½ - 13 STARS TURBAN HEAD**

- 4762 1802/1 13 STARS, Choice Extremely Fine with some portions closer to About Uncirculated. Excellent surfaces, nice clean fields and well struck for both date and type. Usual weakness in eagle's neck as struck (caused by die failure), but better than average specimen. Popular. **RARE.**

**\$2½ 1808 "ONE YEAR ONLY" TYPE**

- 4763** 1808 Very Fine appearing but close examination reveals clever repair at top (and corresponding portion of Reverse). In strong demand as a "One Year Only" TYPE. According to want lists in our file, this is among the "Most Wanted Gold Coins."

Lot No. 4764

**\$2½ CAPPED HEAD LEFT - LARGE SIZE**

- 4764** 1824/1 Extremely Fine soft strike in the head and stars as usual. The piece was cleaned some time ago. Nearly as nice as the Gilhousen 109 at \$6100. RARE. ANACS #B2576.

Lot No. 4765

**\$2½ CAPPED HEAD LEFT - SMALL SIZE**

- 4765** 1831 Sharp Extremely Fine with some claims to a higher grade. Type of 1829 to 1834. Only 4500 minted, but most melted for their gold content when gold revalued in 1834. RARE.

Lot No. 4766

- 4766** 1832 Extremely Fine. Popular for type. RARE.
- 4767** 1832 Sharp Very Good rather than "Fine" for which acquired, probably used for Jewelry. The Guidebook value of Fine \$1,000 reflects its rarity. **PLATE.**

**\$2½ CLASSIC HEAD**

- 4768** 1834, About Uncirculated, quite sharp with luster, well struck, smooth planchet.
- 4769** 1834, 1836, 1839 lot 3 Average Fine.

**AVOID ERRORS - RECHECK YOUR BIDS!**

Lot No. 4770

4770 1836 **Uncirculated**, Sharply Struck with orange toning. Guidebook value of \$2,000 reflects its popularity for date and type in the higher state of preservation.

4771 1838 Extremely Fine. Scarce in higher grades. **PLATE**.

Lot No. 4772

4772 1839 **OVER 8, Borderline Unc.** with considerable luster, only slight friction, tiny nick. Scott states "Very rare in Unc." and values AU \$750; Guidebook Unc. \$1,850; this worth?

4773 1839-O Extremely Fine, interesting Reverse die break, normal Reverse. Popular "Mint Mark on Obverse" type. Scarce. **PLATE**.

4774 1839-O Extremely Fine with inverted Rev. ANACS #A4001. **PLATE**.

Lot No. 4775

4775 1842-O. Only the one pair of dies; one of the last made, as this has the very rare shattered Reverse die. Better than AU, and one could even understand its being graded **Borderline Uncirculated**; excellent sharp strike, sharper than 1976 ANA: 2789. Proof-Like surfaces, with faint hairlines and handling marks. As no full mint state coin has ever shown up, this is **at least tied for finest known and may be the actual finest!**

4776 1842-O Very Fine (handling marks), 1852 Ext. Fine. Lot 2.

4777 1840-O Very Good (polished); 1842-O Fine. Lot 2.

Lot No. 4780

**4780** 1845 B-4, High date, 1 touches bust, 5 almost touches; crack through 3rd to 5th stars. Rev. shattered die of B-3, cracks through E of UNITED through leaves to stem end and rim; through N to branch; and many others. **(R-5) Brilliant sharp frosty Unc.**, minute handling marks. Compare Gilhousen: 147. Plain die cracks on gold in this period, especially from the Philadelphia mint, are very unusual and mostly rare.

**4781** 1846/45-O (46 recut over?) About Uncirculated with luster. Scott AU \$325 for normal 1846-O; overdate not listed in Scott or Guidebook.

**4782** 1847-O Ext. Fine, softly struck Rev. cleaned, with a small x in rt. field.

Lot No. 4783

**4783** 1848 Choice Ext. Fine, nearly About Uncirculated. RARE!

#### 1848 FAMOUS "CAL." OVER EAGLE \$2½

**4784** 1848 "CAL." over eagle, nice sharp **Extremely Fine** with only a small edge nick; has been cleaned, thereby exposing some minute handling marks in the field generally associated with coins of this grade. It will probably retone to a more natural color in the coming years. One of the 1400 or so pieces made from the gold sent from California by the Military Governor there, Col. R. B. Mason who sent two hundred thirty ounces of gold to Secy. of War Marcy (who turned the gold over to the mint to strike quarter eagles). The distinguishing mark "CAL." was punched above the eagle while the coins were in the die. In demand by Pioneer & Territorial Gold collectors as well as collectors of regular U.S. gold. ONE OF THE MOST HISTORICAL AND COMMEMORATIVE COINS OF OUR COUNTRY!

**U.S. LARGE SIZE PAPER MONEY**

**written by William P. Donlon**

4785 1849/48 (Recutting more clear than on other "overdates") Borderline Uncirculated, quite Sharp with only barest friction, most of original luster. Scott AU \$300; Trends Unc. \$400 for normal date, surely this clear overdate worth a substantial bid. **PLATE**

4786 1851 **Brilliant Uncirculated, Sharp Struck!** Scarce.

4787 1851-O Very Fine.

4788 1852-O Sharp Very Fine but polished.

Lot No. 4789

4789 1853 B-8 (old B-5), High date, slanting down, top of 1 runs into bust, die lump before chin. Rev. thin stripes, second incomplete. **(R-4) Brilliant frosty Gem Unc., a beauty.** Cf. RubyI:1725.

4790 1854 B-1, 1 runs into bust; rare shattered obv. die, cracked through tops of UNITED to rim. **Brilliant Unc.,** some very minute bag marks. **PLATE**

4791 1854-O About Uncirculated with much luster.

4792 1855 Glittering orange **Uncirculated, Sharp Struck, Wire Edge, Proof-Like** surface, although with some porosity in obv. fields, pinpoint edge nick. Far superior to most! A premium specimen.

4793 1856-S Ext. Fine, pinpoint edge nick. Scarce and underrated. **PLATE**

4794 1857, 1856, 1853. Lot 3 average Ext. Fine.

4795 1857-O About Uncirculated, underrated this nice.

4796 1859 B-2/Old rev. hub (1840-59): *Large arrowheads, upper two touch each other, lowest nearly touches A, whereas on new hub arrowheads are small and well apart from each other and A. (There are other minor differences; arrow feather runs into claw, upper berries squeezed between leaves, etc., none of which hold true for the new hub.) Centered date, the only obv. die made for business strikes (B-1 Proofs have low date.)* **Brilliant Borderline Unc.,** couple tiny shallow rev. nicks. **Low mintage,** scarce in all grades, **Very Rare Choice,** much more than one would expect of a Phila. coin of this period.

Lot No. 4797

4797 1859 B-3, **New reverse hub (1859-1907):** *small arrowheads, completely differently formed from last, smaller berries and claw, etc.* **Brilliant sharp Choice Proof-Like Unc.,** splendid, a few shallow scattered bag marks short of Superb. Finer by a small margin than Breen II:631 (which was frosty). Finest business strike we have seen! The first Proof-Like specimen we recall seeing. These reverse hubs are distinguishable by the naked eye and should be listed in the red book as type coins. (It is as yet unknown which is rarer for 1859 Philadelphia, mint accounts say one obv. and two revs. for business strikes, but the B-2 die may have been left over from 1858.)

- 4798 1861 Very Fine (cleaned, scratch); 1903 Brilliant Unc.
- 4799 1862 Low date, ear partly filled, **Brill. Unc.**, couple of shallow rim nicks either side, minute bag marks both sides. Much scarcer than 1861 in Uncirculated state.

#### 1862/1 QUARTER EAGLE

- 4800 1862/1 **Extremely Fine, Sharp** (lightly cleaned) bordering on about Unc. Rare in all grades. A well known East Coast dealer paid \$1,900 for a similar piece over two years ago. ANA specimen brought \$2000.

- 4801 1869 Sharp Extremely Fine, Semi-Proof-Like. Scarce 4320 mintage. The ANA piece brought \$400.
- 4802 1871 Very Fine. Scarce.
- 4803 1873 Open 3, Brilliant Borderline Unc. (minor contact marks).
- 4804 1873 Open 3, 1897 Very Fine pair.
- 4805 1874 About Uncirculated, quite sharp with luster but some handling marks. Total coinage of only 3,940 makes it one of the more elusive dates.

Lot No. 4806

#### FAMOUS AND VERY RARE 1875

- 4806 1875 B-2 (dies used for the 400 nonproofs only): date to left, slanting down to right, 5 far from truncation. (On the proofs, date is plated to right, tip of 5 extremely close to right corner of truncation.) **Better than Ex. Fine, traces of Proof-Like surface**, lint mark left of 5; light bag marks, including one on truncation and a smaller one on wing at right. One of **possibly 12 to 15 survivors**, compared with about the same number of proofs. There is no point in repeating the old cliches trotted out every time one of these comes up, which is usually once ever 3 or 4 years on the average; pay attention to the mintage and the number of survivors, remember that most of the survivors are in VF and lower grades (some are even looped), and bid accordingly. Ex R. L. Miles:213, at \$1000 (1968), Coin World (Ohio dealer) 9/18/74 at \$16,975.

Lot No. 4807

- 4807 1876 **Uncirculated**, glittering orange luster, better than most with earlier die state and only slight weakness in curls above forehead (corresponding portion rev. - eagle's leg). Scott states "**EXCESSIVELY RARE IN Unc.**" and values Unc. \$1,500; perhaps rarity in Unc. due to early die failure.

- 4808 1876-S Extremely Fine, Nice even wear. Only 5,000 struck.
- 4809 1877 Ext. Fine, Choice, nearly AU, underrated.
- 4810 1878 **Proof-Like** Uncirculated, lightly bagged.
- 4811 1878-S Uncirculated, partially Proof-Like, Sharp Strike.
- 4812 1878-S Fine; 1907 Extremely Fine.
- 4813 1879 Uncirculated, Sharply Struck.
- 4814 1881 Impaired Proof - Rarest date of the 1880's.
- 4815 1882 Choice Extremely Fine. ONLY 4,000 STRUCK! Cost \$325.
- 4816 1885 Choice About Uncirculued. Second rarest date in the 1880's. ONLY 887 STRUCK. The 1976 ANA piece brought. \$1,100.
- 4817 1887 B-2, Brilliant Proof-Like early strike (acquired as "Proof"). Small brownish tone streaks above forelock. Only a few trivial handling marks short of **Gem** quality. A beauty, probably has been more than once sold as a Proof. Not many of the survivors of the 6,160 minted are as nice as this.
- 4818 1889 Sharp Very Fine, near Extremely Fine.
- 4819 1890 Brilliant Borderline Uncirculated, Proof-Like. Only 8,800 struck.
- 4820 1891 Uncirculated, recut "America" variety. Low coinage.

Lot No. 4821

- 4821 1892 Proof, Choice difficult date in the 1890's.
- 4822 1893 Brilliant Uncirculated, fully Proof-Like. Scarce.

Lot No. 4823

- 4823 1894 Brilliant TWO-TONE WIRE EDGE Gem Proof! PRISTINE! We cannot visualize a lovelier or more desirable specimen. How many of the 122 struck can still exist in this remarkable state of preservation? The low coinage of only 4,000 for circulation places an additional demand for this date in Proof, more so than for the succeeding dates with larger coinages but which catalog the same. The "2400" on the envelope could very well represent its cost.

The "List of Prices Realized" with this catalog can be an invaluable & inexpensive reference guide in your library - be sure to check the appropriate box on bid sheet.

- 4824 1894 B-2, high date, Brilliant Proof-Like Uncirculated, rev. truly Gem level, obv. close to it but for three shallow bag marks on device (the field mark from lower lip is a lint mark, as made). Popular low mintage (4000).

Lot No. 4825

- 4825 1895 Choice **Proof**. 119 Mintage.  
 4826 1896 Uncirculated, Lustrous and Proof-Like. Scarce.  
 4827 1896 Sharp Extremely Fine.  
 4828 1898 Brilliant Uncirculated, **Sharp Struck Gem!**  
 4829 1899 Cloudy, impaired Proof (minute abrasions). Nicer than it sounds Mintage of 150.

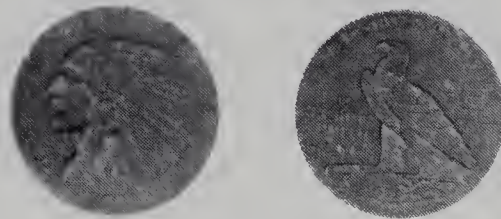

Lot No. 4830

- 4830 1900 Brilliant Wire edge gem **Proof! PRISTINE!** Perhaps an equal specimen may exist but certainly no superior one.

- 4831 1900 Brilliant Borderline Uncirculated (rub on brow).  
 4832 1900, 1907 Choice About Uncirculated, only slight friction.  
 4833 1902 Brilliant **YELLOW Proof**, some light hairlines visible on close inspection.  
 4834 1902 Brilliant orange Uncirculated, Sharp Struck, **Proof-Like, Choice!** Must be seen to be appreciated.

 4838 1904 Sharp Very Fine.  
 4839 1905 Very Choice, About Uncirculated, (rub on eyebrow).  
 4840 1906 **Brilliant Proof**, faint hairline away from Choice. **SCARCE!**  
 4841 1906 Choice Uncirculated. Satin surface with one copper spot.  
 4842 1906 Choice About Uncirculated; 1907 Nice Uncirculated, satin fields; nice pair.

- 4852 1910 (2), 11, 12, 28 (3) Lot 7 Extremely Fine.
- 4853 1910 Extremely Fine.

Lot No. 4854

- 4854 1911 **Gem Matte Proof** One tiny Rev. spot keeps this out of the "perfect" coin class, Better than Beck I, ex. Neil Collection (Mehl). Should bring record price.

Lot No. 4865

**\$2½ UNIQUE 1925 “P”**

**4865** 1925 “P” (no evidence of “D”), die file marks in area where “D” would normally appear leads us to surmise that the “D” was removed from the die before striking this specimen. Brilliant Uncirculated. Cameo Sharp Strike about 3% OFF-CENTER, High Wire Edge left side and PLAIN EDGE! As a “1925” “P” it is certainly worth far more than its cost of \$7,500 (11/2/74 lot 1584); it could fit in as a “UNIQUE DATE & MINT” or as an error.

**4865A** Lucky Irish Gold \$2½ set: 7 in shamrock holder; 1929-26-15-14-D-08-1851-50-O VF-AU.

**4866** Indian Head \$2½ Set 15 (1908-29) Nice Extremely Fine-About Unc.

Lot No. 4868

**\$3 1854 BRILLIANT PROOF-LIKE “PRESENTATION PIECE”**

**4868** 1854 Brilliant **Proof-Like** with High Wire Edge Both Sides, Unusually Sharp Strike! Since it does not have quite all the characteristics of a full Proof, we believe it to be a “PRESENTATION PIECE”. It is obvious that “Special Care” was used in its manufacture. A lovely specimen of the ONE YEAR TYPE with tiny “DOLLARS” ANACS C1760.

**4869** 1854 Brilliant Borderline Uncirculated, only slight friction.

**4870** 1857 Extremely Fine, lustrous.

- 4884 1885 Sharp About Uncirculated, only slight friction, fully Proof-Like. **TOTAL COINAGE OF ONLY 910!** Underrated in keeping with its rarity.

Lot No. 4884

- 4885 1887 Choice **Proof** with very few hairlines, and a tiny nick on the face, only 160 struck!
- 4886 1887 Uncirculated, Choice Semi-Proof-Like, Borderline Gem quality.
- 4887 1889 Choice Uncirculated, a few tiny field nicks stand between this coin and perfection! **MS-65 Gem.** For a quality conscious collector.

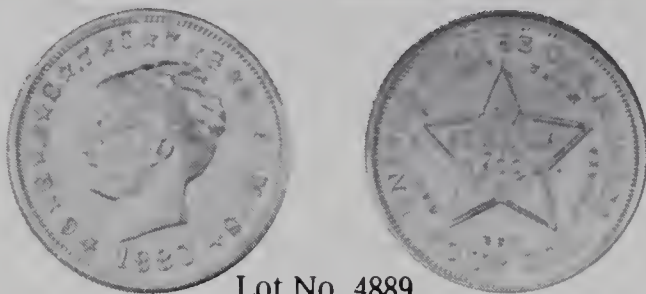

Lot No. 4888

#### 1879 FLOWING HAIR STELLA

- 4888 1879 Four dollar Gold or "Stella" (star Rev.). Total mintage of only 415 pieces! The specimen we offer is a Proof, the Obverse having been lightly cleaned long ago, the Reverse approaches **Gem**. A classic American rarity struck at the suggestion of John Kasson, U.S. Minister to Austria and former Chairman of the Senate Committee of Coinage, Weights and Measures. The coin is the same approximate value as Austrian 8 Florins, French 20 Franc, Italian 20 lire, Spanish 20 pesetas, Dutch 8 Florins, and therefore would make an excellent trade coin. The design was never adopted although they did achieve limited circulation in Washington area. **RARE.** One of the most popular of all U.S. coins!

### 1804 CONDITION-CENSUS \$5 GOLD

4894 1804 **Brilliant Uncirculated, Sharp Struck with Deep Edge Denticles Both Sides!** Small date, normal 4. **Breen 2-C** variety with heavy die break touching T in UNITED. Early die state of this **RARITY 7**. A lovely specimen with just a faint rub restraining our use of superlatives. Breen states **"This date is a great deal scarcer than any other in the 1800-07 group, considered merely as a date"**. The **Semi-Proof-Like** and **remarkably smooth surfaces**, as well as the broad **"SQUARE EDGES"** lend credence to the theory that this beauty was **"SPECIALLY MADE"** for some purpose. **Rarity and Condition!** What a combination.

- 4921 1863 Extremely Fine. Low coinage of 2472.
- 4922 1866-S **NO MOTTO**, Extremely Fine. Scott states "unknown in Unc." and values EF \$600. The infrequent appearances suggest that the references may be conservative in their valuations.

**\$5 MOTTO ON REVERSE TYPE 1866-1908**

- 4923 1866 **MOTTO**, Choice and Sharp Extremely Fine: Popular first year of type. Scott states "unknown in Unc." **EXTREMELY RARE EF.** and values EF \$900.
- 4924 1871-CC **About Uncirculated, quite sharp** but has been lightly polished to give it additional luster. Scott (2 years ago) states "**Unknown in Unc., Extremely Rare in E.F.**" and values AU \$1,250; the strong demand by "CC" collectors (as well as regular gold collectors) could send this rarity to new records.

**FINEST KNOWN \$5 1871-S DOUBLED DATE**

- 4925 1871-S **DOUBLE DATE. About Uncirculated**, usual bag marks frequently encountered in early S mints. Possibly tied for **FINEST KNOWN!** Scott states "**unknown in Unc., Extremely Rare in EF**", This far above normal for an 1871-S. **SCOTT LISTS 1871-S DOUBLED DATE as R-7 WITHOUT ANY PRICES FOR ANY CONDITION!** Scott values normal 1871-S in only EF at \$800; this **Choicer** and **Much Rarer** variety worth?

**4926** 1873 Open 3, Extremely Fine (lightly polished for added brilliance) shattered die rev. Scarce.

Lot No. 4927

**\$5 1878 CHOICE PROOF**

**4927** 1878 Brilliant **WIRE EDGE Proof!** A lovely specimen. At first glance the 8 seems to be recut at the bottom right corner but close inspection reveals a minute spot, probably unpolished in the planchet at time of striking. **ONLY 20 STRUCK**, placing it **AMONG THE RAREST OF ALL PROOF HALF EAGLES!** Under-valued in relation to the more readily available Proof dates. The "6000" on the envelope could very well represent its cost or perhaps the \$6,000 catalog value in the two-year old Scott Catalogue.

**4928** 1878 Possible **FORMER Proof** but now some friction and tiny abrasions in fields. Sharpness and striking qualities compare favorably with the above Proof.

**4929** 1879-CC Fine, acquired as much higher grades. Scarce.

Lot No. 4995

**4995 SMALL EAGLE 1795, Breen-1C (R-7), Brilliant Uncirculated.** According to Breen's Half Eagle monograph, by far, the rarest of the "wide dates" (others range R5 to R-4, total of 6 such wide date varieties). *Obv.: Y and next 2 stars crowded together; Rev.: 4 berries, E free of wing, small spur at stem end, spurs from border between S and O. The strike is exceptional;* all stars show inner detail; every strand of hair is clear; eagle's breast feathers are nearly as bold. Fully radiant Proof-Like surfaces. An outstanding example of the type, certainly **AMONG FINEST KNOWN!**

Lot No. 4996

**4996 SMALL EAGLE, 1795, Breen 6G (R-4). About Uncirculated, Proof-Like.** "Close Date", only 3 berries Rev. Another splendid example of the type, this showing slight wear on high points of the hair. Both these "first-year" copies should attract considerable interest; they are important keys in this magnificent set.

Lot No. 4997

**4997 HERALDIC EAGLE. 1798 Lg. 8, 13 star Rev. Breen 1B (R-2). Choice Proof-Like About Uncirculated.** Four berries Rev., claw broken, one fragment touching A at rt. A "glittering beauty", the Proof-Like fields of strong depth. While the Rev. qualifies with ease at the Mint State level, Obv. friction influences our AU determination. Another superb type piece.

**4998 HERALDIC EAGLE, 1803/2. Breen 1C (R-4). Choice About Uncirculated.** Only one Obv.; Rev. with trace of recutting on T, among other characteristics. Very sharp, lustrous example, free of all but the most minor handling marks.

**EXCEEDINGLY RARE 1795 NINE LEAVES EAGLE - ONLY 5 KNOWN**

- 5020 1795 SMALL EAGLE, Only 9 leaves in branch (other dies have 13). Breen 4-C, Adams 5, Newcomer 439. **Almost R-8. About Unc. or better**, some original Proof-Like surface, small pre-striking planchet chip (or evidence of foreign matter adhering to dies?) between rim and 9th star, another behind neck; small plain rev. lint mark just above bottom rev. rim, another in lower r. rev. field (both as made, from fibers adhering by static electricity to die); unimportant traces of old cleaning. **EXTREME RARITY** of this variety due to immediate failure of reverse die; breaks at first T of STATES and below branch are always present and here are well advanced. Recognized as rarity in Adams's original Coin Collectors Journal series 1934, at which time only the single specimen (Granberg, Woodin, Newcomer, VF) had been traced (since dropped out of sight); in 1959 (EF, severe flan defects), N.N. 55th sale) surfaced. Lot No. 5053

**\$10 1858 "SECOND CHOICEST AVAILABLE"**

- 5053** 1858 Lot 1692 "Sale of the 70's", 11/73 described "Choicest AVAILABLE", but a year ago a Brilliant Uncirculated Gem (not previously known - believed privately held since 1858) was offered by M. T. B. (Manfra, Tordella & Brooks) at \$85,000.00. It is indeed an outstanding specimen as indicated by its price of \$85,000.00. The "Sale of the 70's" specimen then becomes the **"SECOND CHOICEST AVAILABLE"**. It was described there as follows:

1858 **VIRTUALLY** Uncirculated, **SHARP STRUCK WITH NEARLY FULL LUSTER, WIRE EDGE!** Only the faint rubbing in field keeps it from being a strictly Uncirculated "Gem". Scott Catalogue has "R-6, Unknown in Unc. New head, curls detached from the back of neck and separated from each other, the lower curls well away from neckline." A glass reveals a few minute "bag-marks" on edge and neck and the luster in field is a bit more subdued. Still, it is far superior to the Fine to Extremely Fine coins offered in past decades.

A 1961 letter of authenticity from **THE SMITHSONIAN INSTITUTION** signed by V. Clain-Stefanelli, Curator, "Division of Numismatics" accompanies the coin.

The two largest gold collections auctioned in modern years had these comments about the 1858:

WOLFSON (Stack's 10/62) "1858 Extremely Fine, considered in some circles to be the Rarest of all United States \$10 gold coins and one of the rarest of all United States Gold coins. The piece offered here is one of the finest available today; this of course excludes the two Brilliant Proof specimens known. One in Smithsonian Institution, the other in a prominent Mid-West collection, both of which are not available and not considered collectable today." It realized \$4,250 then; 15 years ago.

MILES (Stack's 10/68 also "Extremely Fine" sold for \$4,300; followed by the Shuford sale (Kosoff) in Very Fine at \$4,000. The other specimens (for which we could find any records) appear to range from Very Fine down to those with considerable wear.

**CONDITION** is a **KEY POINT** for this Date and Mint as both 1858-O and 1858-S were also struck (but in larger numbers). **THERE IS NO QUESTION ABOUT AUTHENTICITY IN THIS OUTSTANDING SPECIMEN.** A comparison of this coin with the plates of the Wolfson and Miles coins makes it self-evident that this specimen is **FAR SUPERIOR!** Not only is it sharper, but it has **MUCH CLEANER SURFACES AND FEWER ABRASIONS!**

The Guidebook acknowledges the great rarity of this date in choice condition by omitting any value above Extremely Fine. It valued EF at \$5,000 in 1973 when this outstanding specimen, **after spirited bidding, fetched \$12,000.** The present Guidebook values EF at \$6,000, therefore this remarkable specimen could now bring proportionately more than the \$12,000.

**5054** 1858-O About Uncirculated with some luster. Scott: "Excessively rare in Unc. and values AU \$600. **PLATE**

Lot No. 5055

**\$10 1859-O "FINEST KNOWN"?**

**5055** 1859-O, Lot 1694 11/73 Sale of the 70's described: 1859-O Very close to Uncirculated, only slight wear, some "Mint Luster" still visible. Scott states "Low R-7" (only 10 to 12 known) Unknown in Unc." It fetched \$2,500; has since been resold at \$3,250.00. Guidebook value of \$3,500 for Unc. is theoretical since no Unc. is known; "Trends omits the value for **any condition** and instead has "EXT. RARE".

**\$10 WITH MOTTO "IN GOD WE TRUST" 1866-1907**

**5056** 1870-S "Very Fine" from 11/75 Hirt sale but right wing bit too worn for grade. SCARCE. (only 8,000 struck). Undervalued.

**5057** 1874 Very Fine, sharp but excessive bag marks.

**5058** 1874-CC Very Good with typical weak mint mark. Scarce.

Lot No. 5059

**5059** 1877-CC lot 1100 11/73 sale described: "**Extremely Fine & Sharp with some luster. VERY RARE.** Scott states "**Rarity 6, Unknown in Unc.**" It fetched \$2,100; "Trends" values EF at \$2,100 — could "Trends" value be that of this four year old record? This specimen was later resold at \$2,500.00.

**5060** 1879-S About Uncirculated, quite sharp with luster.

Lot No. 5061

**\$10 1879-O CONDITION-CENSUS**

**5061** 1879-O About Uncirculated, quite sharp with luster! Scott states “**Extremely rare in Unc.**” ONLY 1,500 STRUCK MAKING IT ONE OF THE LOWEST COINAGES OF THE ENTIRE **EAGLE SERIES!** Trends \$3,200 in only EF, surely this candidate for “Condition-Census” (6 choicest ones known) worth somewhat more.

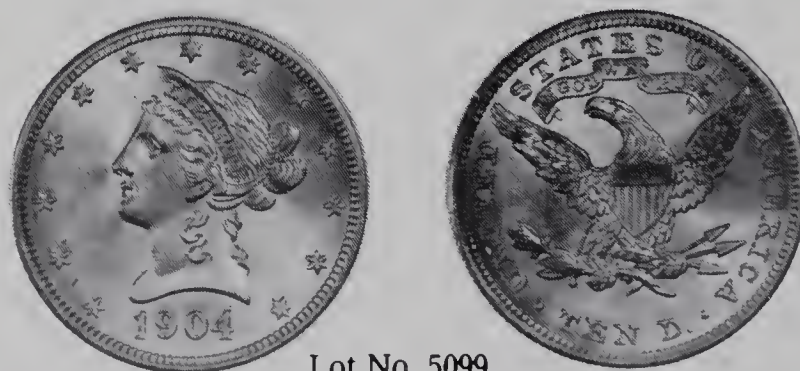

- 5062** 1879-S Uncirculated, Proof-Like. The tiny field bag marks restrains our use of superlatives. **PLATE.**
- 5063** 1880, 1881-S, 1882, About Uncirculated with luster - lot 3.

- 5080 1892-O About Uncirculated with luster. Scarce. Only one full mint state encountered (Scanlon's); Scott has AU \$400.00, most survivors appear to be VF to EF grades. Definitely a sleeper. **PLATE.**

- 5082 1893 About Unc.; 1894 EF; 1881 Fine. Lot 3.

Lot No. 5104

**\$10 1907 LIBERTY HEAD PROOF**

5104 1907 **Brilliant Choice Proof**, Popular final year Liberty head design. Excellent match for Ullmer coin (1974) at \$4,000, though a glass discloses a few faint and unimportant hairlines. One of the better survivors (are there as many as 30?) of original mintage of only 74.

5105 1907-D Brilliant Borderline Uncirculated, rub on top curl

Lot No. 5106

**\$10 1907 PERIODS, WIRE EDGE**

5106 1907 St. Gaudens type; **Wire Edge, with PERIODS.** Brilliant Uncirculated, similar semi-matte surface to all others seen from these dies; trivial rim nick above dot following final S. **Pristine and can even be called Choice**, which is more than can be said for many of the survivors of the 500 originally minted, especially as there are no signs of handling on devices or in fields. As near as one can get to St. Gauden's original conception of this design; the type adopted (without periods) had been extensively "corrected" by the jealous Barber, to no purpose other than impressing his dull personality on to the coins.

Lot No. 5301

**\$20 1931 UNCIRCULATED**

- 5301 1931 Brilliant Frosty Unc.!** Very few bag marks to mar its lovely satin surfaces. **Choice!** Must be seen to be appreciated. One of the **GREAT RARITIES**, always recognized as such; *one reason may be that spelled out by B. Max Mehl (quoting unnamed Treasury sources?) in unpublished ms. catalogue of the Amon Carter Sr. collection: "Only 45 specimens put into circulation by the mint." Very few turned up in French and Swiss banks in the 1950's and it is quite possible that the named figure of 45 may even be correct. Possibly ex Kosoff May 1955:1196, "Unc.," very small line on Liberty's gown.* **EXTREMELY RARE!** When will you find another equal to this incredible specimen?

Lot No. 5302

**1946 UNITED NATIONS GOLD MONETARY PATTERN STRUCK IN 1946**

- 5303 1946 UNITED NATIONS ESSAI-DUCATON** lovely design with flags of "Big 5" founders, MONETARY UNITY, WORLD PEACE completes Obv. Symbolic figures FEAR, SPEECH, WANT, RELIGION with FREEDOM at top, in 23.95 karat gold, size silver dollar, weight U.S. double eagle, **Brilliant Proof, Choice!** In original issue box plus plastic display holder. **ONLY 313 STRUCK**, when die was destroyed. Popular with U.S. collectors (note U.S. stamp albums and catalogs include United Nations stamps). We believe the UN will issue coins as they have done with stamps. These limited issue ESSAI-DUCATONS STRUCK IN 1946 at founding of UN should then rise substantially. Note many thousands of dollars realized by Huth 1893 gold HAWAII patterns.

The beautiful design quickly made them popular for jewelry (gold was \$35 per oz. in 1946). We have since encountered worn and damaged pieces (from use as jewelry?) and know of some that were melted for gold when it rose dramatically. CW 6/2/76 at \$875.00.

### PRIVATE & TERRITORIAL GOLD CHRISTOPHER AND AUGUST BECHTLER

The coinage of this firm was among the first and most prolific of all pioneer gold issues. Most were worth more than face value and eventually were melted for their intrinsic value.

- 5316 A. Bechtler (1842-52), 27.G., 21.C. Sharp Extremely Fine. The most popular type of Bechtler coinage. Mounted in attractive holder.

### PROVISIONAL UNITED STATES MINT 1851-1853

From 1851 until 1853, the United States Government ran a provisional mint in San Francisco. During the first months of operation Augustus Humbert acted as the U.S. Assayer while Moffat & Co. issued the coins. Humbert affixed his name on all these coins until the formation of the U.S. Assay Office in 1852. From then until its closing in 1853, with but one exception, the phrase **United States Assay Office of Gold** was substituted for Augustus Humbert.

The coinage of this series is Unique in numismatics; never before has a mint operated so much like a branch mint, but not identified as such. These pieces should properly be included as regular U.S. coinage, and as such, included in type sets.

### FINE SELECTION OF \$50 GOLD "SLUGS"

No coin so typifies the private gold issues as does the fifty-dollar gold piece. Often called a slug, quintuple eagle, golden adobe, or ingot, they widely circulated, and for several months were the only private gold pieces being issued in the West.

Lot No. 5317

**ONE OF THE FINEST KNOWN \$50 LETTERED EDGE GOLD "SLUG"**

**5317 \$50 EDGE LETTERED: "1851 AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA,"** Obv. **\$50 D C UNITED STATES OF AMERICA** Around eagle holding ribbon inscribed **"LIBERTY"** and **"880 THOUS"** above; Rev. circular design without **"50"**.

Virtually **WITHOUT SIGNS OF CIRCULATION**, although slight friction evident on highest points. Remarkably free from all but the most minor abrasions which normally plague these large soft gold pieces, tiny scratch on rock which gives appearance of being part of design, lightly cleaned which enhances its appearance. Fully equal to the Beck 1 specimen which realized \$15,000 over 2½ years ago. The only other comparable specimens known are now either in institutions or a major collection not likely to be sold in the near future. An excellent opportunity to acquire a stunning type coin! (15,000.-up)

Lot No. 5318

**5318 \$50 LETTERED EDGE** similar to above. **Nice Sharp Very Fine** without any serious defects which come on many we have seen over the years, some tiny handling marks normal to grade. **Much scarcer than later reeded edge type.**

**RARE \$50 1851 LETTERED EDGE: "50" REVERSE**

**5319 \$50 EDGE LETTERED** similar to above, but **887 THOUS**, **"50"** in Reverse center, **Extremely Fine with some luster**, usual handling marks commensurate with grade, virtually all lettering and major devices (including **"50"**) distinct and bold! Occasionally this variety can be found up to Very Fine (most seen over the years are well worn) but it is **QUITE RARE ABOVE VERY FINE**. Somewhat rarer than the no **"50"** type. Guidebook value of \$9,000 may be a bit low compared to values assigned to more readily available reeded edge varieties.

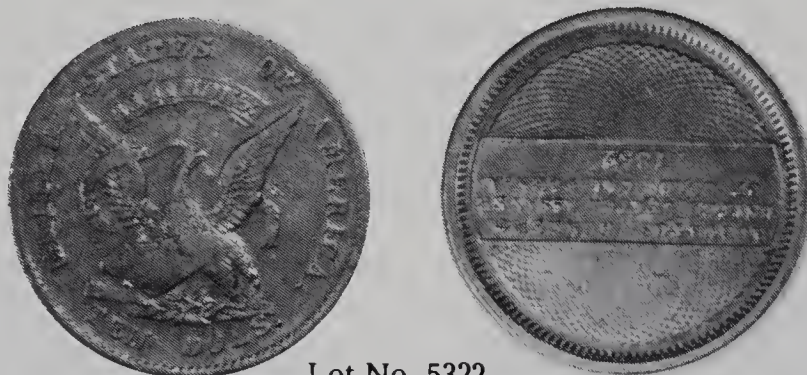

- 5320 \$50 1851 **REEDED EDGE** with edge lettering and date placed on Obverse and "FIFTY DOLLS" in place of "50 D C", 880 THOUS (small), no "50" on Rev. Typical well circulated specimen although date quite legible, outer lettering partially legible; inner lettering and eagle fully Good to Very Good; Rev. nice Very Good. Surprising lack of major edge bruises typical of worn specimens.

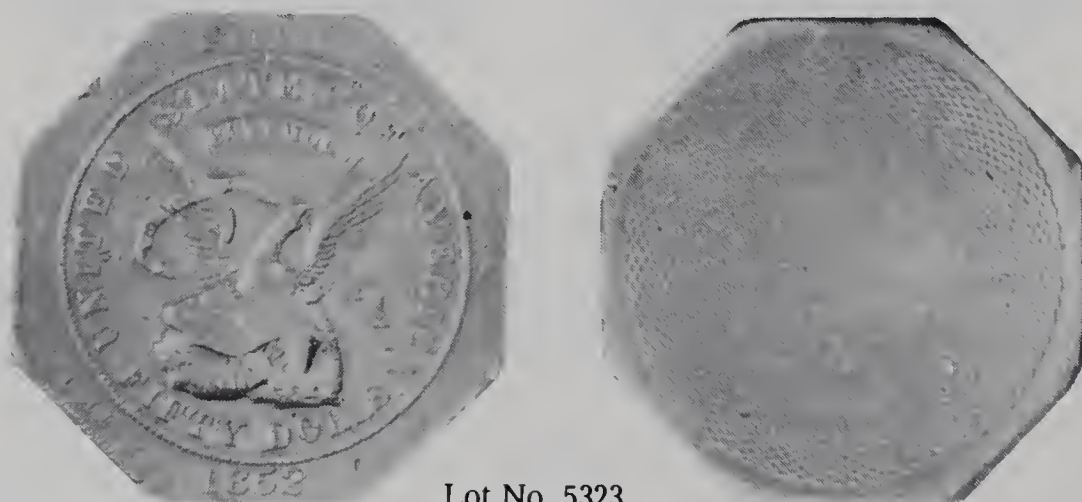

Lot No. 5321

- 5321 \$10 1852 OVER 1, 884 THOUS: Obverse similar to \$50 with eagle, Reverse inscription in tablet, distinctive Reverse die break. **Struck only four days** between February 11 to 14, 1852 to supply merchants' needs for currency of less than \$50 denominations. **About Uncirculated with luster! High R-5 and undervalued. Excessively Rare** in Mint State, reflected in Guidebook not attempting to value it above EF. ANACS B7447. (3,000-up)

Lot No. 5322

- 5322 \$10 1852 Perfect Date, 884 THOUS:, interesting **die break** through NITED on Obv., Very Fine without any serious nicks or abrasions. Rarer than Assay Office type, unknown in mint state. Latest auction records around \$1,100.00.

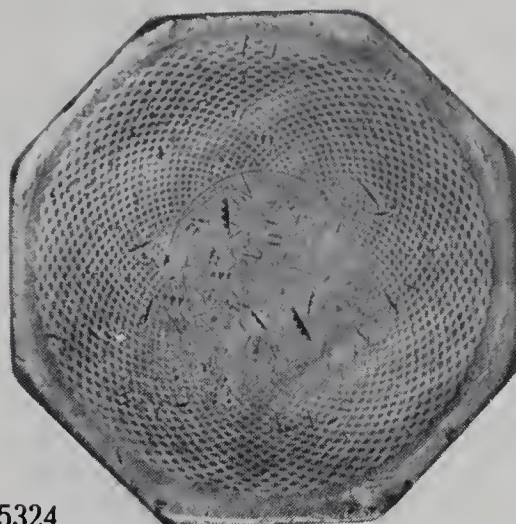

Lot No. 5323

#### UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO, CALIFORNIA

- 5323 \$50 1852 Reeded Edge, 887 THOUS., about **Extremely Fine** with **sharp date**, outer legend sharper than on some although not as sharp as on inner legend. An attractive specimen with minor handling marks (largest being a tiny edge nick.) Much rarer than the usually seen 1851 reeded edge Humbert.

Lot No. 5324

- 5324** \$50 1852 Similar, Very Good to Fine. Date fully visible with almost all of outer legend clear, fewer than usual amount of nicks and abrasions generally found on coins in this condition. An acceptable specimen.
- 5325** \$50 1852, 900 THOUS., uniface brass Obverse impression taken from unused die with **Kuner** under eagle. Die supposedly destroyed in San Francisco fire but evidently it was rescued and impressions in silver and brass made shortly thereafter. Said to be Low R-7 (10 to 12 known). Records of quite a few hundred dollars with private sales reported into four figures.

Lot No. 5326

- 5326** \$10 1852 U.S. ASSAY OFFICE OF GOLD, 884 THOUS, variety with "o" under "N" of UNITED and strong denticles or beads. Sharp Extremely Fine, bordering on **About Uncirculated with luster**, free of any major defects. **Rare this nice**. Only one known in mint state and that priced at \$4,250.

Lot No. 5327

- 5327** \$20 1853 U.S. ASSAY OFFICE OF GOLD, 900 THOUS., pleasing **Choice About Uncirculated** with an interesting planchet flake under THOUS still adhering to the coin! Nice clean surfaces with only a tiny edge nick at 10:00. Popular type (1,500-2000)

## MOFFAT & COMPANY

This firm was the most prolific and respected of all the California private coiners. The operation was run by John L. Moffat, J.R. Curtis, P.H. Perry, and S.H. Ward from 1849 until 1851 when they contracted with the U.S. Government to issue the coins of the U.S. Assay Office.

Lot No. 5328

- 5328** 1849 \$5 **Nearly Uncirculated** with much of the original **Mint Luster**. Variety with die breaks around FIVE DOL. One of the most popular of the private gold types. A strong four figure coin. ANACS No B7446.

Lot No. 5329

- 5329** 1849 \$10 **TEN D.** variety, about Very Fine, struck from dished dies resulting in Reverse being sharper than Obverse (Obv. a bit shy of full VF), handling marks commensurate with grade. **VERY RARE (R-6)**. Undervalued.

Lot No. 5330

- 5330** 1849 \$10 **TEN DOL.** variety, Large Letters, about Extremely Fine Obverse with Reverse nearly Uncirculated, some original Mint Luster. An attractive piece without any major defects. **RARITY 5.** (2,000-2,500)

- 5331** 1850 \$5 Small Eagle, Very Good or so, no major defects. Popular for type. **PLATE.**

Lot No. 5332

- 5332 1852 \$10 Rare Wide Uneven date, Ext. Fine; interesting tiny "test-mark" at edge (to see if gold?). RARITY 5. Struck January 24, 1852 after being petitioned by merchants and bankers. Attractive eagle type. Popular (1,500-2,000).

### WASS, MOLITOR & CO.

This firm, composed of Hungarian patriots Count S.C. Wass and A.P. Molitor, enjoyed an excellent reputation for their skill and integrity in issuing \$5, \$10, \$20 and \$50 gold pieces.

Lot No. 5333

- 5333 1852 \$10 Large Head. All specimens come with Obverse die cut too deep causing the Reverse to be much weaker than the Obverse. This specimen about Extremely Fine, tiny nick, Reverse nice clean Fine. SCARCE.

Lot No. 5334

### \$50 1855 WASS, MOLITOR & CO.

- 5334 1855 \$50 ROUND. One of the more popular of the pioneer issues (and the least expensive \$50 Round type). Overall this specimen is about **Very Fine**. Owing to their large size and the soft gold, most of these pieces are plagued with numerous tiny bag marks. While this specimen is not free of these marks it is still quite a desirable piece with 90% of the lettering clear, stronger Reverse than on many seen.

## KELLOGG & COMPANY

This important assay office did not commence issuing coins until 1854, when they struck \$20 gold pieces. Some 300,000 pieces were issued from 2/9/1854 until 1855.

Lot No. 5335

- 5335** 1855 \$20 Scarce Short Arrows. **Choice nearly Uncirculated** with only the faintest traces of friction; tiny nick hardly detracts from the desirability of the coin. Much rarer than the 1854 in higher grades.

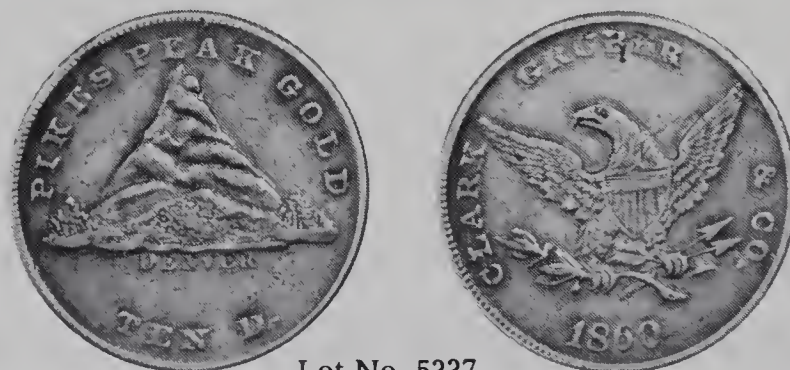

## CLARK, GRUBER & CO. PIKES PEAK GOLD, DENVER

This was the first firm to issue coins from Colorado gold. Although some \$3 million worth were issued, only a tiny fraction of those exist today. The \$10 and \$20 1860 "Pikes Peak" mountain issues are among the most distinctive and popular of pioneer gold issues.

Lot No. 5336

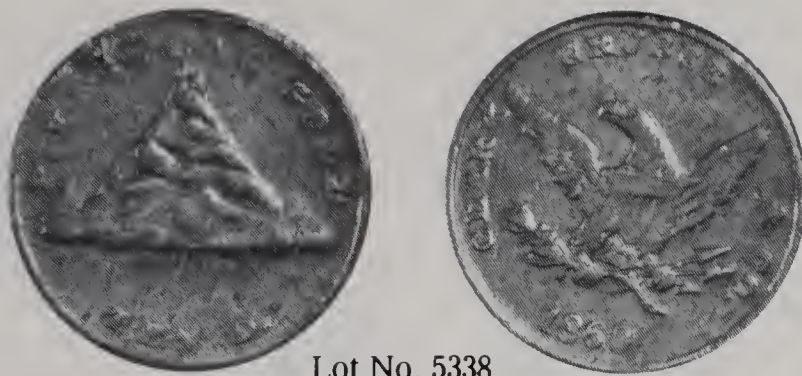

- 5336** 1860 \$21½ **Nearly Uncirculated** with typical weak striking above left side of shield, pinpoint nick, considerable mint lustre. A pretty coin.

Lot No. 5337

- 5337** 1860 \$10 The famous Pikes Peak **mountain** design. Extremely Fine with minor handling marks. An excellent example of this popular type coin.

Lot No. 5338

- 5338 1860 \$10 Another, Very Good as to wear, slight planchet flaw at 11:00, but evidently the coin was excessively heated causing a wavy planchet appearance. Displayed in lucite holder.

Lot No. 5339

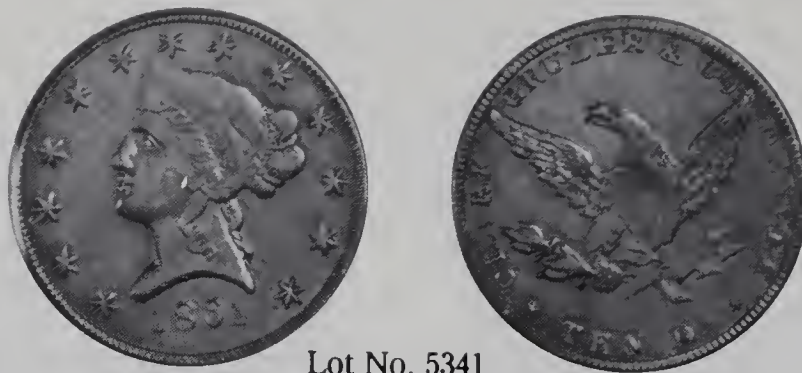

- 5339 1860 \$20 Gold plated copper trial strike. From a 1966 sale as follows: PIKES PEAK GOLD TWENTY D. DENVER around view of mountain with straight sides, "1" in field between DENVER and TWENTY D. (the only such variety we have seen). Reverse, CLARK GRUBER & CO. 1860 around eagle center, reeded edge, gold plated (probably over copper) practically UNCIRCULATED (a few tiny pinpoint nicks in field)". Interesting. Note copper specimens without "1" have sold at around four figures.

Lot No. 5340

- 5340 1861 \$5 Clark Gruber, Sharp Very Fine, minute planchet flaw at 9:00 and short scratch from 6th star causing it to appear like a comet. **Much sharper** than usual weak struck specimens.

**DON'T FORGET TO ORDER YOUR PERSONALIZED COPY of the

Lot No. 5342

- 5342 1861 \$20 Gold plated copper trial strike, Flawless Uncirculated except for a slight thin spot on the Reverse planchet. Excellent type for those who do not wish to spend into five figures for a nice gold specimen.

- 5354 U.S. MINT SAN FRANCISCO 1956 Silver Bar. 20.40 Ozs of 999.75 Fine Silver, #'s 766 & 249 face & edge resp.

## 1900-1901 LESHER "COLORADO SILVER DOLLARS"

Coined by Joseph Lesher in 1900 and 1901 at Victor, Colorado, these octagon-shaped (similar to octagon \$50 California gold pieces of 1851-1852) were USED IN TRADE AND STOCKED BY VARIOUS MERCHANTS, who accepted them in payment for goods. There are two major issues: 1900 at \$1.25 and 1901 slightly smaller at \$1. Space was left at the bottom so the number of each coin could be punched in after "No.". The 1901 issue also allowed space for the merchant to have his name and address punched in above the number. All are now Rare with many varieties **EXTREMELY RARE**. They properly belong to the "Silver and Gold Coinage of the West" with the major types listed on p. 247 of the Guidebook. Farran Zerbe made a study of these interesting pieces many years ago. The renewed interest has led to additional study which we expect will be published in the not-too-distant future. **THERE ARE ONLY 6 MAIN TYPES** with the last type consisting of 10 varieties.

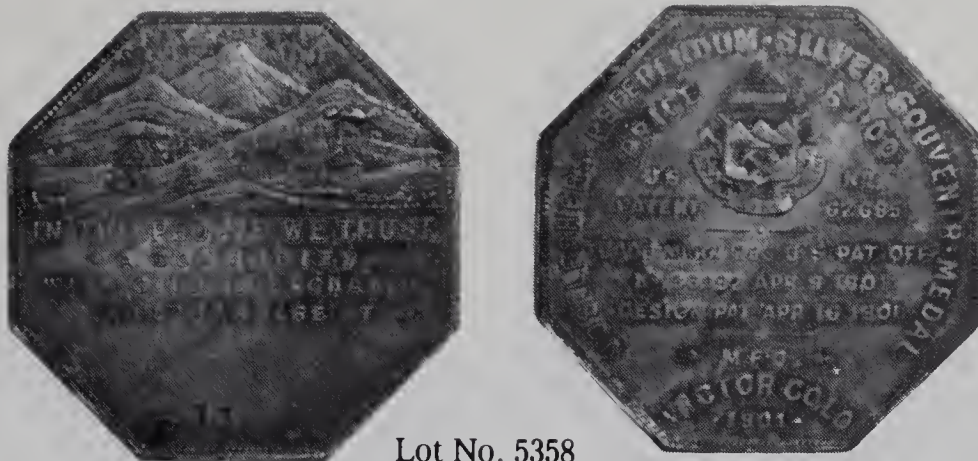

- 5355 "JOS LESHERS REFERENDUM SOUVENIR," "ONE OZ. OF COIN SILVER, price 1.25, M.F.G.D. VICTOR, COLO., 1900"; Rev. "A COMMODITY, Will give in EXCHANGE CURRENCY COIN OR MERCHANDISE AT FACE VALUE, No. 75." Very Fine although Rev. bit shy of grade, tiny edge nick rx. **ONLY 100 STRUCK 77 YEARS AGO!** "Only 20 or possibly 25 still in existence." A distinct "type" without mining scene that appears on other 5 main types, thus greatly undervalued, "Worth" closer to four figures. **PLATE.**

Lot No. 5356

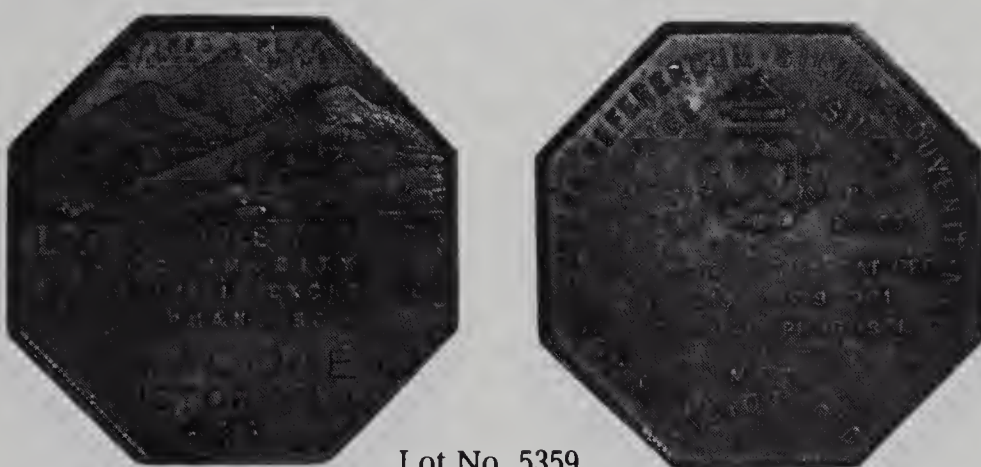

- 5356 "PIKES PEAK SILVER MINE", beautiful mountain mining scene, "A COMMODITY, WILL GIVE, IN EXCHANGE, MERCHANDISE, AT A. B. BUMSTEAD, no. 503"; Rev. "JOS. LESHERS REFERENDUM SOUVENIR," device from Colorado State Seal (eye over 3 mountains, mining tools) SCROLLS AT SIDES, 1 OZ. COIN SILVER, Price 1.25, M'F'D VICTOR, COLO., 1900." **UNCIRCULATED WITH LOVELY GOLDEN-BLUIISH LUSTER.** ONLY 600 STRUCK. How many can still exist, particularly in this remarkable state of preservation? Premium specimen should fetch somewhat more than conservative value of \$500 in the Guidebook.
- 5357 1900 "A. B. BUMSTEAD" but type **WITHOUT SCROLLS** at sides, No. "738." Virtually **Uncirculated**, barest friction, natural bluish patina. Guidebook seems a bit conservative in its valuation for Unc. at \$450. **PLATE.**

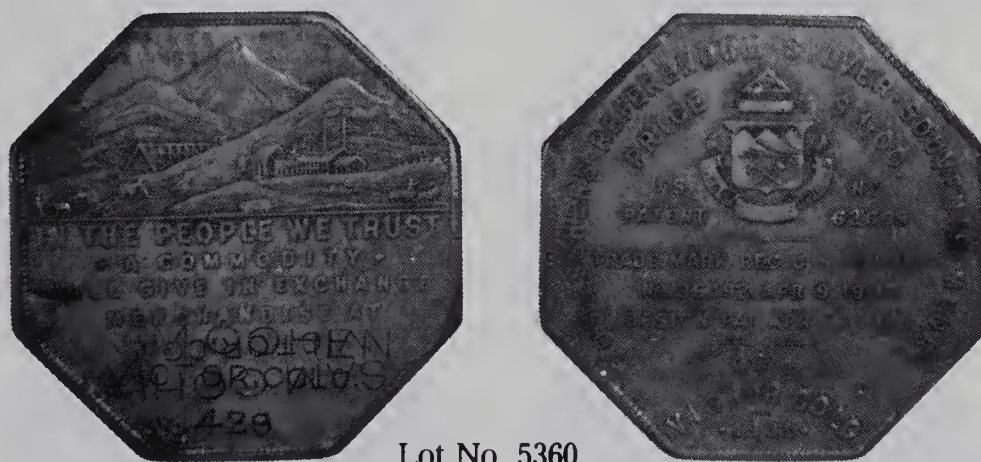

Lot No. 5358

- 5358 1901 **Reduced size**, some changes, "PRICE \$1.00" rather than "PRICE \$1.25" as in above type (description at beginning of series). **IMPRINT TYPE**, no name but No. "11" **GLITTERING BLUE AND GOLD PROOF-LIKE, HIGH WIRE EDGE!** Listed as "**R-5**" (31 to 75) Acquired 1968 when this magnificent specimen was valued \$1,000. Present

Lot No. 5359

- 5359 1901 "**SAM COHEN, VICTOR, COLO.**", No. "436" stamped into coin, Zerbe 7 variety. Lovely blue and golden **Proof-Like** with **HIGH WIRE EDGE AROUND BOTH SIDES!** Acquired some years ago as "The Choicest of the Only 9 or 10 Known Specimens." We note "Five or six known extant with 10 reported in sales and other records" stated. In 1964 it was valued "over \$1,500." Surely this highly desirable rarity now worth substantially more.

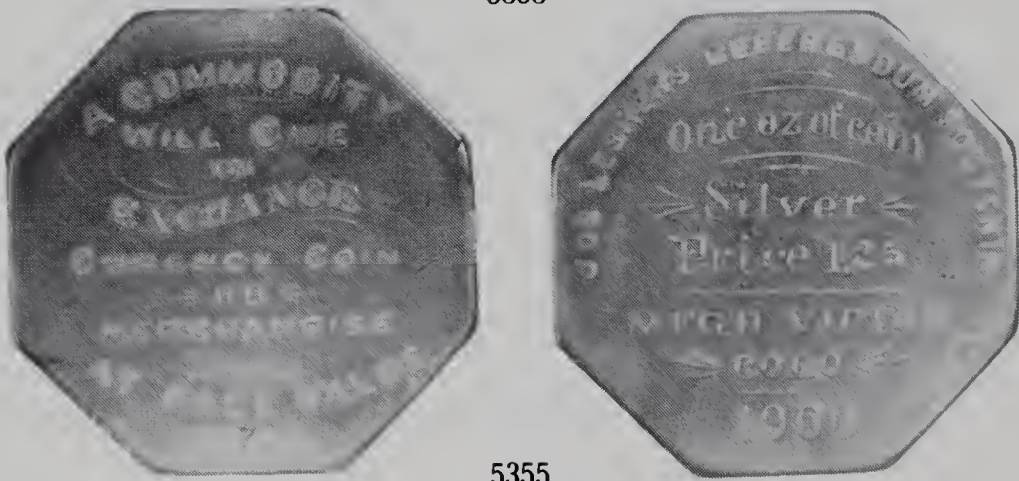

Lot No. 5360

- 5360 1901 "**SAM COHEN, VICTOR, COLO.**" first stamped **INVERTED**, then **RE-STAMPED CORRECTLY OVER FIRST STAMPING**, No. "429," Extremely Fine. **UNIQUE!** Acquired 1964 auction at \$2,500. Values have increased in the intervening 13 years.

5355

5357

5364

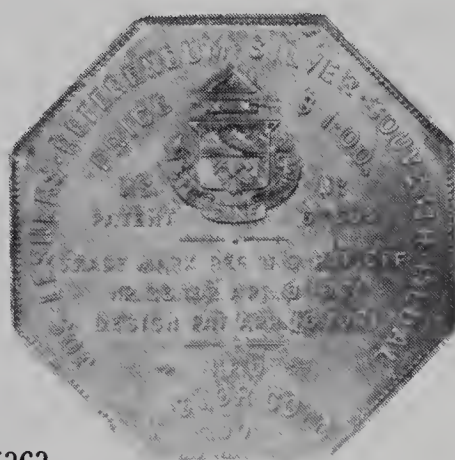

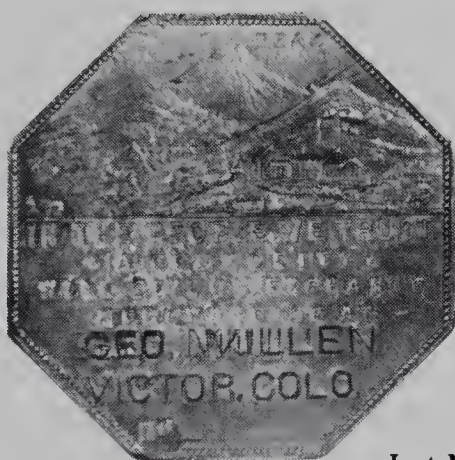

Lot No. 5361

- 5361 1901 "D. W. KLEIN & CO., PUEBLO, COLO." No. "1070." Zerbe 8 variety, very close to **Uncirculated** with only slight friction, original bluish-golden luster. One authority states "**Only 6 Known**" while another states "**8 Known**," additional specimens have been reported although it is still listed as "R-7" (4 to 12 known). From the same 1964 sale at \$1,175. Present value?

Lot No. 5362

- 5362 1901 "GEO. MULLEN, VICTOR, COLO.", No. "1509," Zerbe 9 variety, uneven wear (name and number quite strong) resulting in Fair to Very Good condition. Ex: Rumble and Briggs collection 1952 wherein stated "WE DOUBT IF MORE THAN 7 OR 8 ARE KNOWN." Another authority states that 12 are known. Acquired 1964 at \$485. Present value?

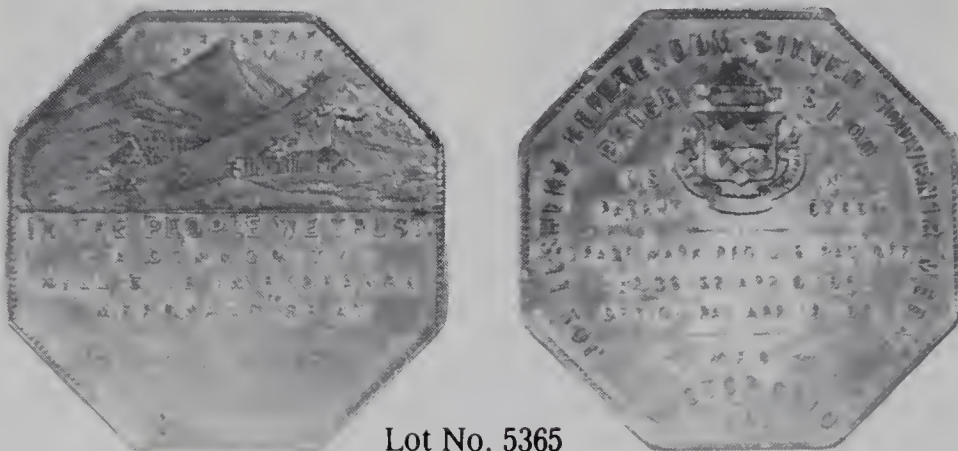

Lot No. 5363

- 5363 1901 "GEO. MULLEN" **DOUBLE STAMPED** (first name too far left) and **NOT NUMBERED**, lovely glittering blue **Proof-Like** with Raised Wire Edge both sides! There are **only 2 specimens known** without the number (the other is **Extremely Fine**) but with the double stamped name, this could very well be **UNIQUE!** Acquired 1964 sale at \$3,600. Present value?

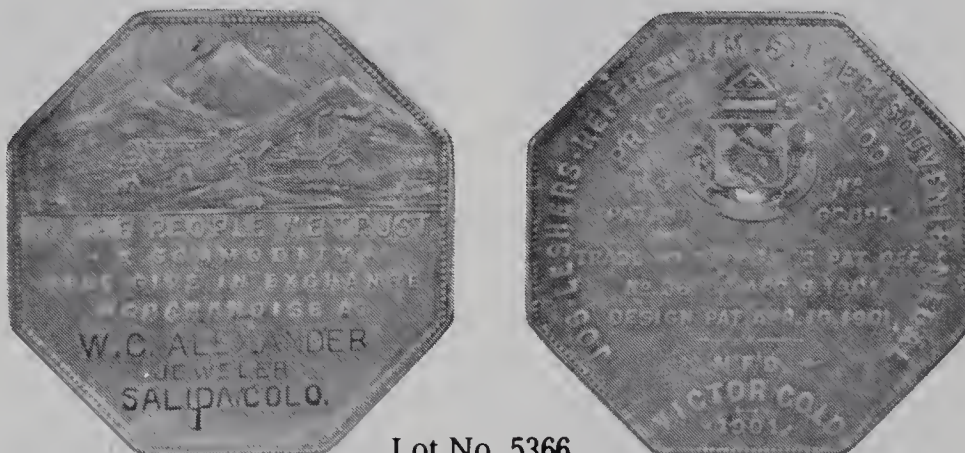

- 5364** 1901 “**BOYD PARK, DENVER, COLO.**”, No. “517”, Zerbe 10, virtually **Uncirculated** only barest trace friction, original blue and gold luster. A leading authority stated some years ago, “I doubt if more than two dozen exist today of the 200 or so struck.” A decade or so ago, we note an “Uncirculated rubbed” specimen at \$500. **PLATE.**

Lot No. 5365

- 5365** 1901 “**BOYD PARK, DENVER, COLO.**”, Zerbe 10A, **VERY RARE** Sub-variety **WITHOUT NUMBER**, Lovely blue and golden **Proof-Like** with Raised Edge, faint edge nick. An authority believes “**Possibly 4 or 5 known**”! An AU specimen in the outstanding 1964 offering realized \$490. It will be interesting to see what this superior one fetches 13 years later.

Lot No. 5366

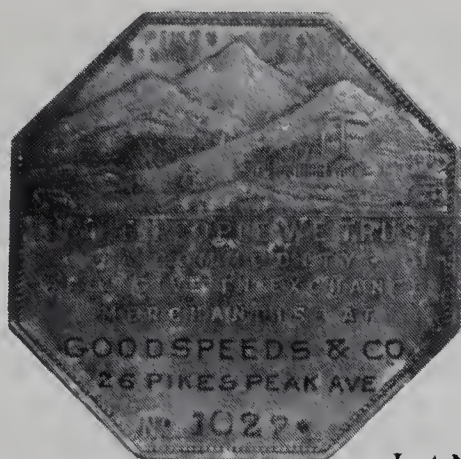

- 5366** 1901 “**W.C. ALEXANDER, JEWELER, SALIDA, COLO.**” in three lines rather than two lines as all the others. **INVERTED “V”** instead second “A” in SALIDA, Zerbe 11, nice sharp Very Fine with pleasing blue and gold patina. *The highly coveted No. “1” specimen!* Far superior to the Very Good specimen in the outstanding Rumbel collection. Farran Zerbe (in 1917) considered Alexander the rarest imprint in the series! From the Roach collection. It was long thought that only 4 specimens existed, however one authority claimed that 3 additional specimens were known to him with more reported. From the outstanding 1964 sale at \$2,100. Present value?

Lot No. 5367

- 5367** 1901 **"GOODSPEEDS & CO., 26 PIKES PEAK AVE"** . . . No. "1027", Zerbe 12, very close to **Uncirculated** with only barest friction, lovely original bluish golden luster. **ONLY 3 SPECIMENS ARE AVAILABLE TO COLLECTORS!** A fourth one is permanently impounded in the A.N.S. Museum. This specimen is from the famous Rumbel collection (sold 1952). Reappearing in the outstanding 1964 sale where it fetched \$2,900. It is interesting to note that the number "1027." is engraved, rather than punched as in the other varieties. We expect spirited bidding for this great rarity.

Lot No. 5368

- 5368** 1901 **"W. F. WHITE MERC. CO., GRAND JCT., COLO."**, No. "2", Zerbe 14A. From the famous Rumbel collection sold at 1952 A.N.A. Convention Sale described by New Neth. Coin Co. quite conservatively as "very fine, a nice coin (inspection invited as we believe it should rate somewhat higher condition), **"CONSIDERED THE ONLY SPECIMEN EXTANT."** *"The above described item is technically **UNIQUE**, as the imprint is in small letters, and entirely different from that on the only other known example. The Zerbe piece, now in the A.N.S., was stamped from an entirely different punch. W. F. White & Co. were clothiers in Grand Junction, Colo. Two other specimens are now Claimed to exist but whether they have the usual size imprint or this small letters variety, we have not been able to ascertain. From the outstanding 1964 sale at \$3,100. Who knows how many years may elapse before the opportunity again occurs to acquire such a rarity.*

## KAGIN'S PRIVATE & TERRITORIAL INVESTMENT PROGRAM

A UNIQUE program under the *personal* supervision of Don Kagin and A.M. Kagin. This program must be limited to only a few. Not many coins now exist, and availability is sporadic. Don's intensive research (which will ultimately be incorporated and published in book form) will alter the rarity and values of a number of pieces. Until this book is published, some “bargains” can still be obtained. BUT — in order to take advantage of these “bargains,” you must be a member of this investment program. Time is of the essence in this area, as unlike other fields, only a single specimen may become available before the book is published. Much new and surprising information has been uncovered in this intriguing field. Those availing themselves of this program will receive something educational (often something unpublished) with every purchase.

Yes, I am interested in your **PRIVATE & TERRITORIAL GOLD Investment Plan**. Please send me (without obligation) more information.
